

December 14, 1937.

Chancellor E. H. Lindley,
University of Kansas.

Dear Chancellor Lindley:

Miss Hoover and I have talked several times this fall regarding the possibility of finding some one to replace Mrs. Bauman for the second semester in the Physical Education department. I am sending you a copy of a letter that I received from Miss Hoover on December 2, which is self-explanatory.

I am also sending you a copy of a letter that I wrote to Dean Schwegler on October 28 this year which had to do with the summer session budget. The reason I am sending it to you now is to call especial attention to the paragraphs marked with red pencil. This explains why we have difficulty in securing high class people in this special field at a low salary.

It is not true in the other fields because those people can take work for their master's degree and they are happy to do so, but it is the end of the road so far as the physical education people are concerned until we are in position to offer a master's degree in physical education.

I am wondering if it would be possible to continue Mrs. Bauman for the second semester, and then under no circumstances continue the set-up for next year, and just do the best we can. Of course, you have noticed what Miss Hoover has to say regarding Dr. Sherbon's leave of absence. I am not informed on this point, but am passing the information on to you for your attention.

Very sincerely yours,

FCA:AH

Director of Physical Education.
