Discussion Problems:

"Have the separate rule books in football (High School Federation and N. C. A. A.) added to confusion in the interpretation of the rules?"

"Would it be advisable to limit participation in high school and college athletics to two sports?"

"How can sportsmanship at athletic contests be improved?"

"Are coaches tending to neglect the development of their teams by officiating in too many games?"

"How should non-self-supporting interscholastic sports be financed?"

"Are athletics a part of secondary education with respect to objectives, methods and financial support?"

"To what extent should the number of interscholastic sports be extended?"

"How can a closer correlation be established between the compulsory physical education program and the voluntary intramural and interscholastic athletics?"

"Are state championships for high school athletics advisable?"

"Should we discontinue all eligibility requirements except, possibly, age, physical condition, and physical development?"

"Should we broaden the base of our athletic program in our high schools by introducing a large number of sports involving a great number of boys, or should we continue with a limited program with a very narrow base?"
