Mr. M. E. Cheeseman, Principal  
Leonardville Rural High School  
Leonardville, Kansas

Dear Mr. Cheeseman:

I am sorry that I have not answered your communication of the 14th instance sooner. As District Governor, I have been out of town quite a bit lately.

We are playing Iowa State on Saturday, October 6th. If Pryce Hurley can come to Robinson Gymnasium Saturday morning, I will be glad to look at his shoulder.

I am not sure that I will be in Lawrence on the 12th when we play Washburn at Haskell Stadium, Friday night. I may be here, but generally when we do not have a game, I am not always in Lawrence. The next home game is November 17th, Kansas State at Lawrence.

I have a course in theory and practicing of athletic injuries. Personally, I would much rather that Hurley come at 9:30 in the morning on Monday, Wednesday or Friday at some time convenient to you and to me, then the boys in the class would have an opportunity of observing the injury and learning something from the situation.

I have not kept a Clinic Record as I do this work voluminously and have so many of similar cause, if I did I would have no time to do any other necessary work. Let me know the date that you decide, and I will endeavor to help young Hurley all that I can. However, I would advise that the boy wear the strap to hold his shoulder in place because the shoulder joint is a very unstable one, and if he gets his elbow above the plane of the shoulder and if he should have it struck from underneath, causing an elevation of the elbow and a lowering of the head of the humerus, the dislocation is very apt to recur.

Sincerely yours,

Director of Physical Education  
Varsity Basketball Coach
