

Office of Director

Douglas County Health Unit

City Hall

Lawrence, Kansas

H. L. Chambers, M.S., M.D.

Director

May 18, 1945

Dear Sirs:

I am inclosing a statement of the approaching, tuberculosis finding, chest clinic.

Will you comply with its suggestion and make an appointment for yourself, your family and your employees? It is especially desired that all food handlers, food processors, and food servers be examined yearly or oftener.

We contemplate a special certificate for commercial firms in which all employees are examined and found negative.

Hoping to see you and your people at a clinic,

I am,

Very truly yours

H. L. Chambers, M. D.

Director

Douglas County Health Unit
