A recent letter from the Office of Defense Transportation emphasizes the necessity of restricting travel as much as possible. The College Association has abandoned national meetings for two years as a move to cut down reasons for travel among its members.

The planning of regional meetings along with other organizations which have scheduled meetings is not meant to add to the number who will attend these meetings. The primary purpose of these briefer meetings is to provide a chance for those of our members who will be in the vicinity to get together and to talk about some of the problems that are of particular interest to them.
