

4

type of game that has placed a heavier burden on the poor officials. As now played the game leaves the players, officials and spectators fatigued and dizzy after forty minutes of hectic, kaleidoscopic, shuttle-~~basket~~ hockeyed basket ball jargon. And ~~the rules body~~ ^{with them} have a taller fellow than they had ever dreamed, together with a game that cannot be well officiated. Maybe six or eight personal fouls ^{allowed} would be the just and proper limit considering the conditions of the game.

Certainly the elimination of the center jump was not the answer for the ^{equalization} ~~standardization~~ of this Gargantuan player who possesses such an unequal advantage under a low basket.

Before the N.C.A.A. Basket Ball Rules Committee treats symptoms again without research or study suppose we freeze the rules before more blunders are made.

Science has now discovered a growth hormone which makes ordinary rats grow to about the size of small dogs. These growth hormones without doubt will be in great demand. Some basket ball coaches doubtless will feed them to their altitudinous behemoths with the idea of developing a flock of basket ball drinkers. Instead I would feed the growth hormones to the ten foot basket with the idea of increasing the height a couple of feet.
