

71st A.H.F.T.D.
Camden, Ark.
April 17, 1943

Dear Doctor Allen:

Before my trip up that way, I had been intending to write to you but kept putting it off until now.

My trip back was almost uneventful and almost on schedule. As usual, the trains were crowded and a little late.

Here at the 71st A.H.F.T.D. everything has been rained out since noon yesterday. Fortunately all the cadets are ahead of schedule on flying time and can really enjoy their early "open port" today.

Did I tell you that I am assistant Commandant of Cadets here in addition to being in charge of all the physical training activities? My C.O. likes my work so up to this point everything has gone well.
