

November 12, 1942.

Mr. Kent Culbertson,
1011 Indiana Street,
Lawrence, Kansas.

Dear Kent:

I want to congratulate you on your fine response to what might have been a very critical situation this morning. We are proud of such fellows as you who are quick to think and act in an emergency.

With thanks and appreciation, I am

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.

FCA:AH

November 6, 1942.

Mr. Frank Cramer,
Gardner, Kansas.

Dear Frank:

Mr. Hunt, who is a free-lance commercial photographer, came over and took pictures for the Kansas City Star on Thursday. I made arrangements for him to send you four pictures. I gave him your address, and he said that he knows of you and will send the four. I think his bill will be reasonable. He has some dandy pictures, and I believe you will like them.

I chose him, rather than D'Ambra, because Hunt was shooting all the pictures and I knew he could get you some good ones.

Very sincerely yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.

November 6, 1942.

Mr. "Dutch" Chapman,
McLouth, Kansas.

Dear "Dutch":

It rained Wednesday and I did not play golf,
and I presume that you were not out, either. I had wanted
to pay you for the bacon and eggs. You haven't yet told
me the price, but there were four dozen eggs.

If you come in Sunday I would like to get some
more bacon and eggs, but I have enough pineapple juice.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

FCA: H

December 8, 1942.

Mr. Allen Moore, President,
Chillicothe Business College,
Chillicothe, Missouri.

Dear President Moore:

I enjoyed your letter of November 25th enclosing your announcement of November 17th. Congratulations and best wishes on doing a bang-up job for Uncle Sam and the students under your control.

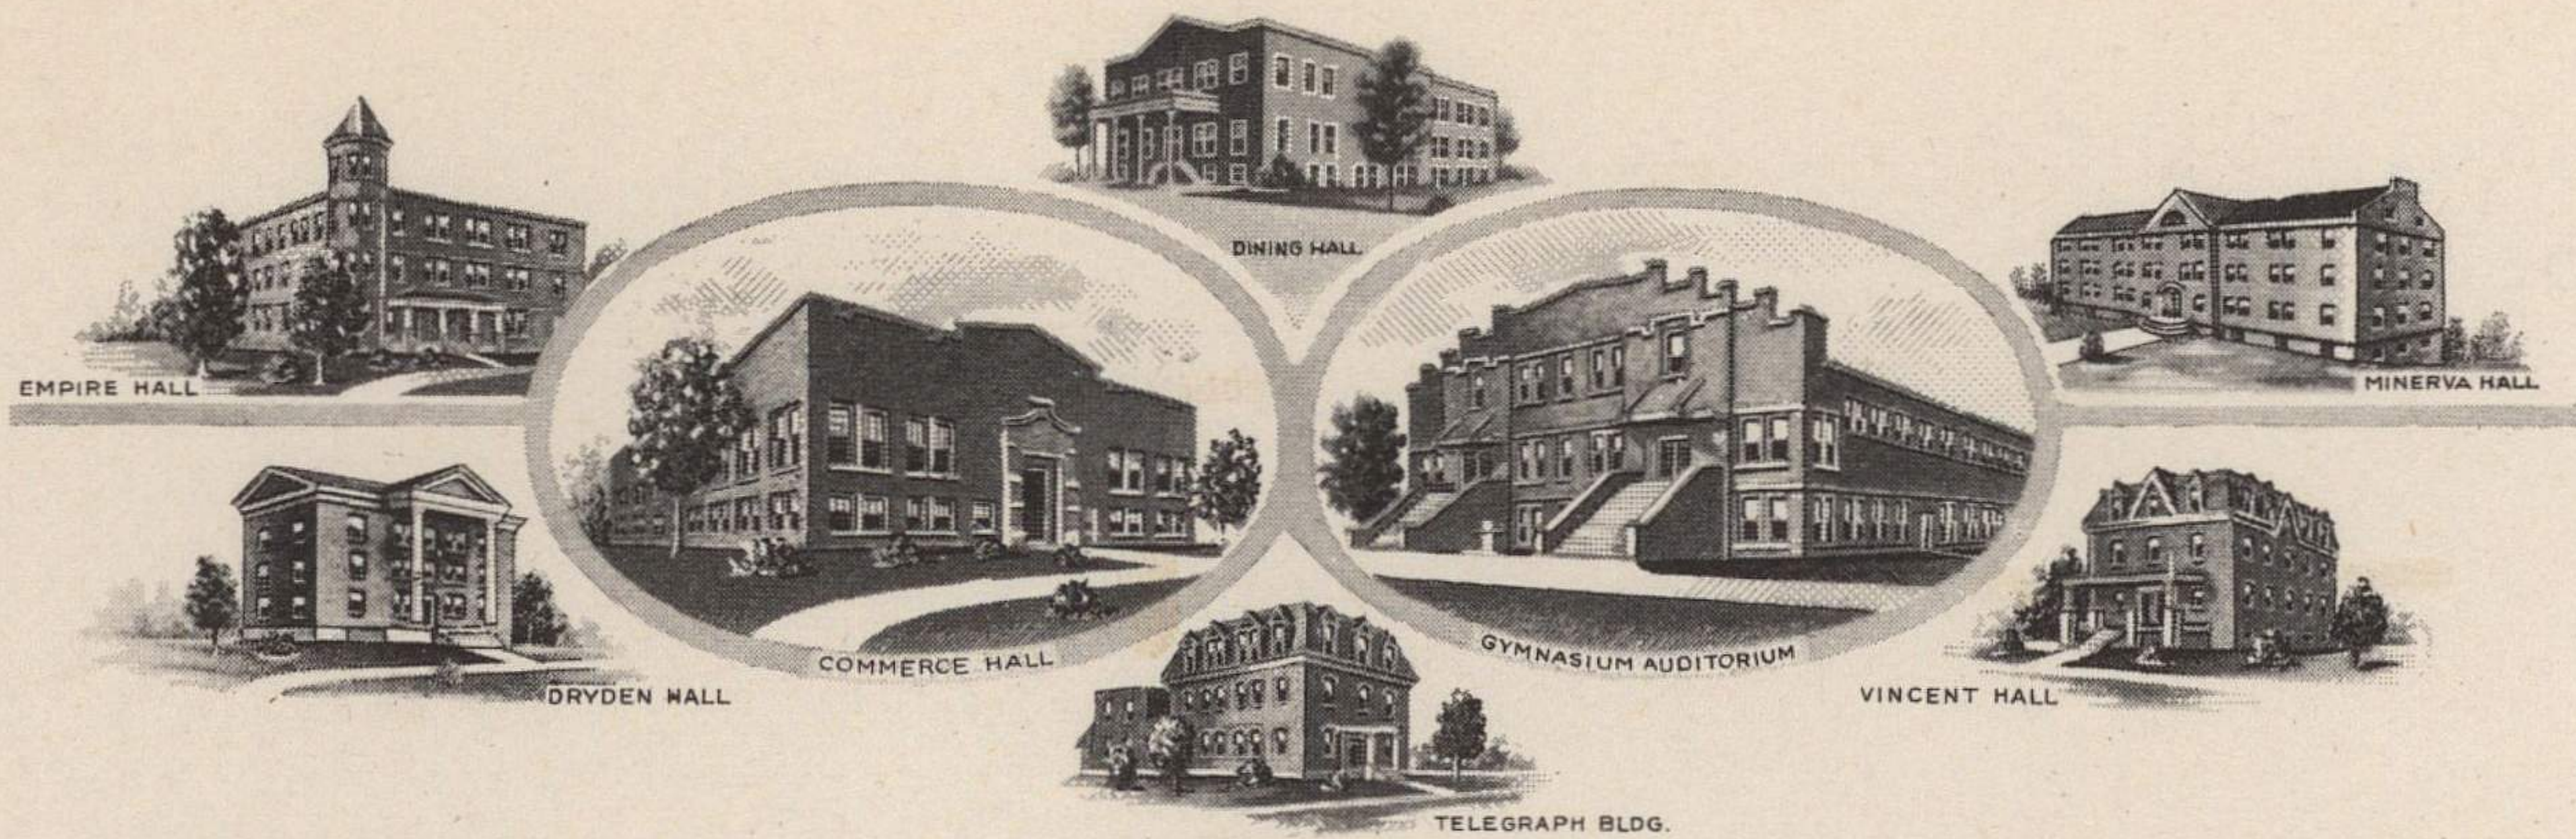

With every good wish, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

CHILLICOTHE, MISSOURI

November 25, 1942

Mr. Forrest C. Allen,
Coach, University of Kansas,
Lawrence, Kansas.

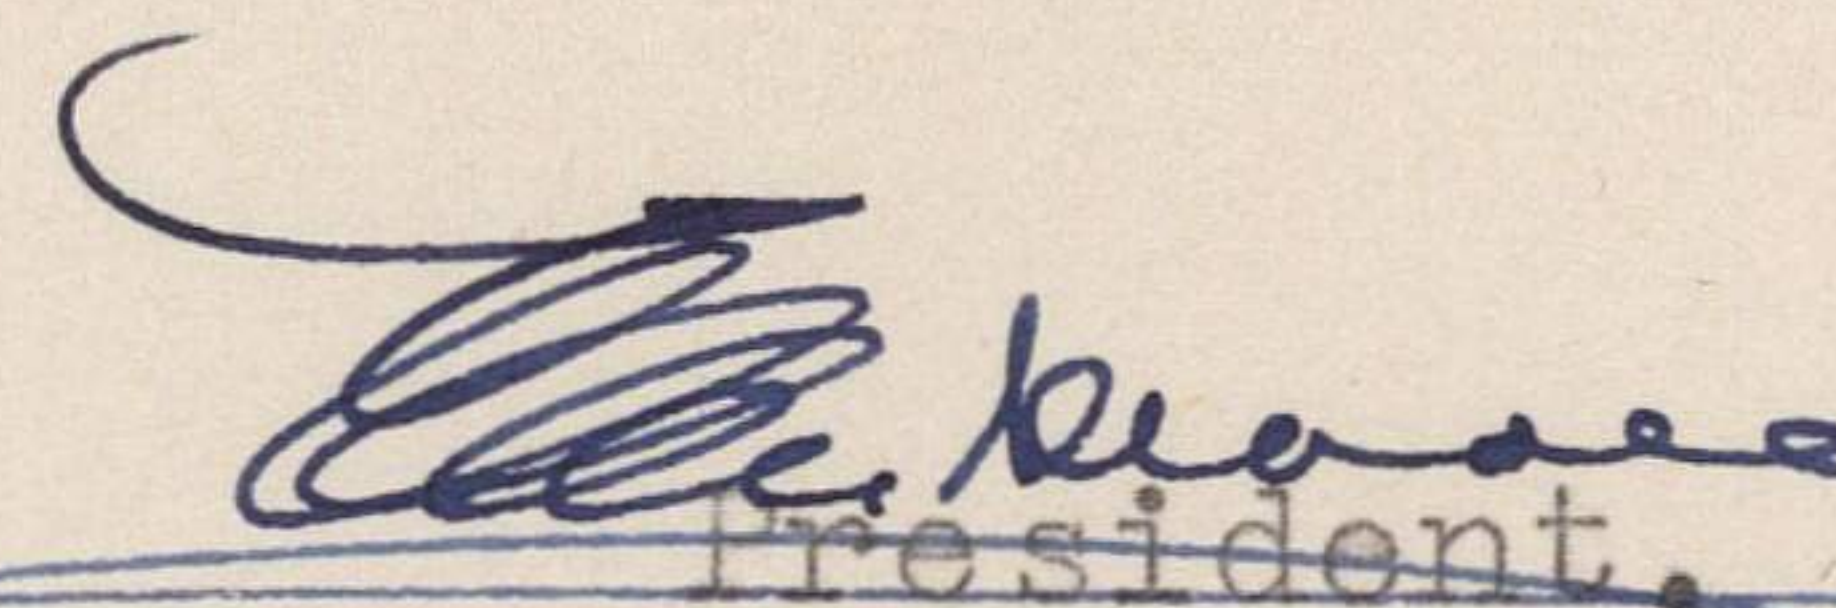

Dear Mr. Allen:

Knowing you are interested in our new Army Clerical School set-up and the changes made necessary in the regular school, I am enclosing copy of our form letter which was sent out this week to the girls in our prospective student file. I apologize for the length of the letter (may keep you up late at night reading it) but it is the easiest way I can get this information to you.

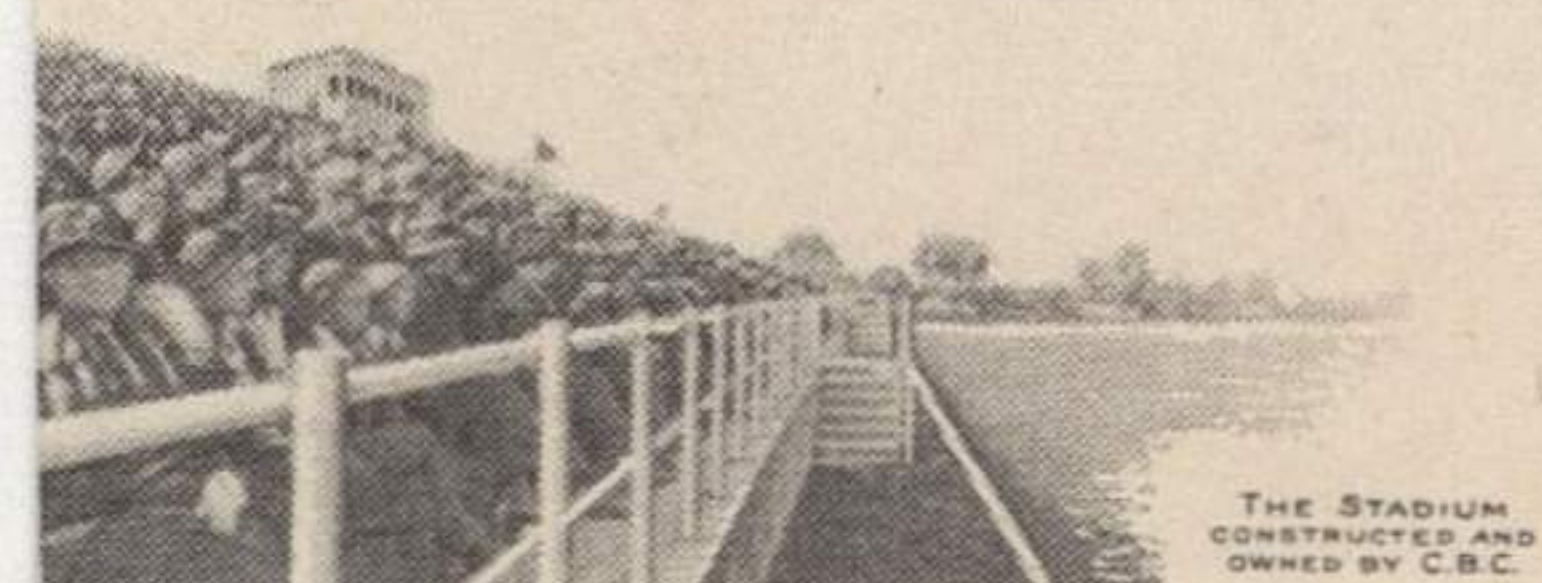

We have had to take some raps and have had plenty of headaches in setting up this program, but we are happy in the recognition which has come to us and are enthusiastic in doing the best job possible.

Drop in and see us sometime.

Yours most sincerely,

President.

Announcing Our Part In this Wartime Program,

Yes, Listen:

We just must tell you about the establishment of the Army Air Force Clerical School here on our campus and of the extensive alterations made necessary in the different buildings, about the additional buildings leased in town and of the revising of our entire business college school program. You are entitled to such information.

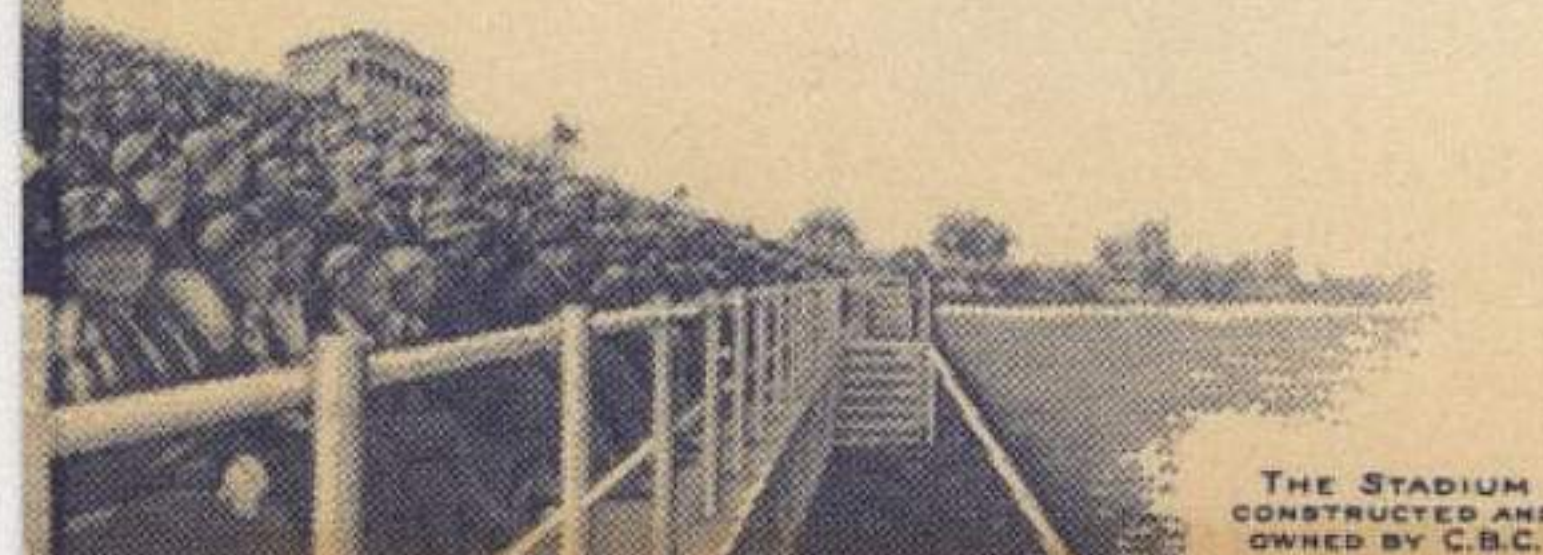

But get this -- WE ARE CONTINUING THE REGULAR SCHOOL, now called "the civilian school."

The Army School has been segregated from "the civilian school" and does not interfere nor will it in any way lower the standard of the work and training for which our "52 year old" institution is nationally known. And we feel complimented indeed that this clerk training program for the Air Corps should come to us. Yes, it CAME TO US, as we were approached on the subject, were ASKED to set aside a part of our facilities for Army Clerical Training.

Due to the war, our boy enrollment is greatly reduced so with classrooms and equipment to care for a daily attendance of two thousand students, we were able to take on this additional training program and thus maintain both the Army School and the Civilian School.

Through the program, the civilian school loses the use of the Gymnasium-Auditorium including also the classrooms on the lower floor, most of the Dining Hall including the school rooms on the upper floor and only parts of the Telegraph Building. Commerce Hall together with the commerce hall annex and most of the Telegraph Building will house the regular or the civilian school. A number of the college or administrative offices have been moved into a building across Monroe Street from the college and campus and which was leased specifically for this purpose.

We will "for the duration" ring down the curtain on our varsity athletic program next Saturday night when we have our Annual Football Banquet honoring the football team of this year, one which is finishing the season in the Inter-State Conference in a tie for first place. The Army officers stationed here will also be guests

THE SWIMMING POOL
CONSTRUCTED AND
OWNED BY C.B.C.

THE OLD ARCH

SWIMMING POOL
MUNICIPALLY OWNED
AND OPERATED

of honor at the banquet and will add further to this big, delightful and colorful affair. We also close our successful football season Friday night with the Kansas City Kansas Junior College game. The soldiers already in attendance here will be in an adjoining rooting section in the stadium and will help us win.

But the giving up of the Gymnasium, which will mean, as already stated, the suspension of our varsity athletic program, will not mark the end of our athletic activities. The giving over of the Gymnasium to the Army will suspend only our Varsity athletic program. However, we had anticipated such suspension at the close of our present football season. The calling of the 18 and 19 year old boys will so deplete our boy enrollment that a varsity program would not be possible. Since the civilian enrollment from now on will be practically all girls, we are planning an extensive intramural athletic program this coming spring. Coach White will be transferred to the Army School and succeeded in the Civilian School by a well-qualified woman athletic director. The different State Clubs will organize soft ball, volley ball and soccer teams. We have and will maintain, of course, our battery for five excellent tennis courts and will hold the Annual State Club Tennis Tournament in August. The Annual State Club Swimming Meet will again be held in July and in the spring we will have the girl events in our Annual State Club Track and Field Meet. It is also planned to introduce archery and perhaps fencing.

And we will go ahead with our band, drum corps, orchestra, glee clubs, etc. These organizations are already eighty percent girls. And we are continuing The Dux, our college year book, The Quacker, our little school paper, and the other publications. The college assemblies are being held in the large Commercial Department in Commerce Hall where a low stage has been built and where we have installed the public address system formerly in the college auditorium. The State Clubs will furnish as usual the social life for the school and campus and our Student Christian Association and our local churches will continue to take care of our students' spiritual welfare. Yes, and at The Armory will be held occasionally some very delightful social affairs while many of the girls will also be invited to serve as hostesses and assistants at Chillicothe's USO or soldiers' recreational center.

Now then for the housing:

The Army does not permit its trainees to be assigned to rooming houses but they must be quartered in authorized barracks and where they are constantly under Army supervision and discipline. Included in the Army restrictions is a ten o'clock bed check six days of the week and furthermore, the Army school program is eight hours a day, and an additional hour for physical training, all this six days a week. (And in the physical training program our splendid stadium and athletic field continues in good and patriotic use.) The only building on the campus converted into barracks is the Gymnasium-Auditorium. We have under contract the City Hall Auditorium and the Strand Hotel Garage and on December 1st, we take over The Strand Hotel, Chillicothe's newest fireproof hotel. These buildings are down town and a half mile off campus. They will be used as additional barracks as we get farther and farther into this new and big Army School program.

Then as for the Boarding Department or Mess Hall:

Our big and modern Boarding Department must also be divided so we may serve separately both civilian students and Army trainees. We have converted the Main Dining Hall (the main floor of the building known as the Dining Hall) into an Army Mess Hall. The civilian students, those who choose to board with us, are being served and accommodated in the College Cafeteria, this just under the Army Mess Hall. The hours of serving are being staggered so as not to make too difficult a task for our enlarged kitchen and bakery personnel. And we will continue to accept part-note settlements for cafeteria tickets as we have previously been doing for board settlements in the Dining Hall and for tuition settlements.

But get this -- MINERVA HALL, DRYDEN HALL AND VINCENT HALL CONTINUE AS GIRLS' DORMITORIES and, of course, are located across the street and some distance from the Army center.

Then there are many homes and a number of large and independently operated rooming houses out in town where reasonable and desirable rooming accommodations for both girl and boy students are still available and have been available all along.

You see, we are sharing with the Army the splendid set-up we have here for a business school. We are doing our part. We are contributing as best we can to winning the war.

But what are YOU doing?

Here is what Harry Hopkins says in an article in a recent issue of American Magazine:

"WE ARE mobilizing our fighting men through Selective Service. Now we must mobilize our civilians. A Selective Service for War Work at Home must distribute our man-and-woman power fairly, firmly and efficiently..... None can be spectators."

Are you doing your part? Are you fitting into this immense War Program somewhere and somehow? Are you being more than just "a spectator"?

It is possible through a business course for you to enter active and actual military service by enlisting in the WAACS or the WAVES. A number of our former students are already in such service. But anyway, you CAN and you SHOULD become a civilian soldier, you should do your part to win this war.

We wanted also to tell you of recent placements but this letter is already much too long. Will have to leave the placements for our next letter. Permit us to say, though, that several of our students have worked into good \$1440.00-a-year office positions right here in our Army School. (These, of course, were taken from Civil Service rolls.) And the past month, six were placed in the offices of the Sunflower Ordnance Plant operated by the Hercules Powder Co. at Lawrence, Kans.; two more with the DuPont Plant at Tulsa; another at the St. Louis Ordnance Works; another with the Rock Island Arsenal

at Rock Island, Ill. -- and eighty percent of these placements were women. Other important women placements were with Douglas Aircraft at Tulsa, Consolidated Aircraft, San Diego, and Vultee Aircraft, Inc., Vultee Field, Calif. Yes, and we must mention that Fern Lawson received an appointment with the U. S. Maritime Commission and is located in the office at the Kaiser Company Shipyards at Swan Island near Portland, Oregon and witnessed the launching of the merchant vessel recently built in the record time of ten days.

But here we are talking placements. Won't do more of this than just to say in addition to those mentioned, fifty-four other students have gone to work in good positions -- thirteen with the Government, mostly in War Department offices; ten with big meat packing concerns (five with Swift's, four with Armour's and one with Wilson & Co.); six with banks (four with big city banks in Kansas City, St. Louis and Los Angeles); two in State offices in Montana and New Mexico; and others with such nationally known concerns as Sears Roebuck & Co., Union Pacific R. R., Transcontinental & Western Airlines, R. H. Macy & Co. (New York City), Root Petroleum Corp., Dun & Bradstreet, The Eppley Hotels Co. (Omaha), Y.W.C.A., The Scott-Burr Stores Corp. (Florence, Ala.) and Hall Brothers (Kansas City). And better than ninety percent of these placements were girls and young women.

You, Miss America, have the greatest opportunity of all time to render much needed and patriotic service, to establish yourself in an excellent business or government position, to enlarge your field of life and usefulness and to achieve real and material SUCCESS.

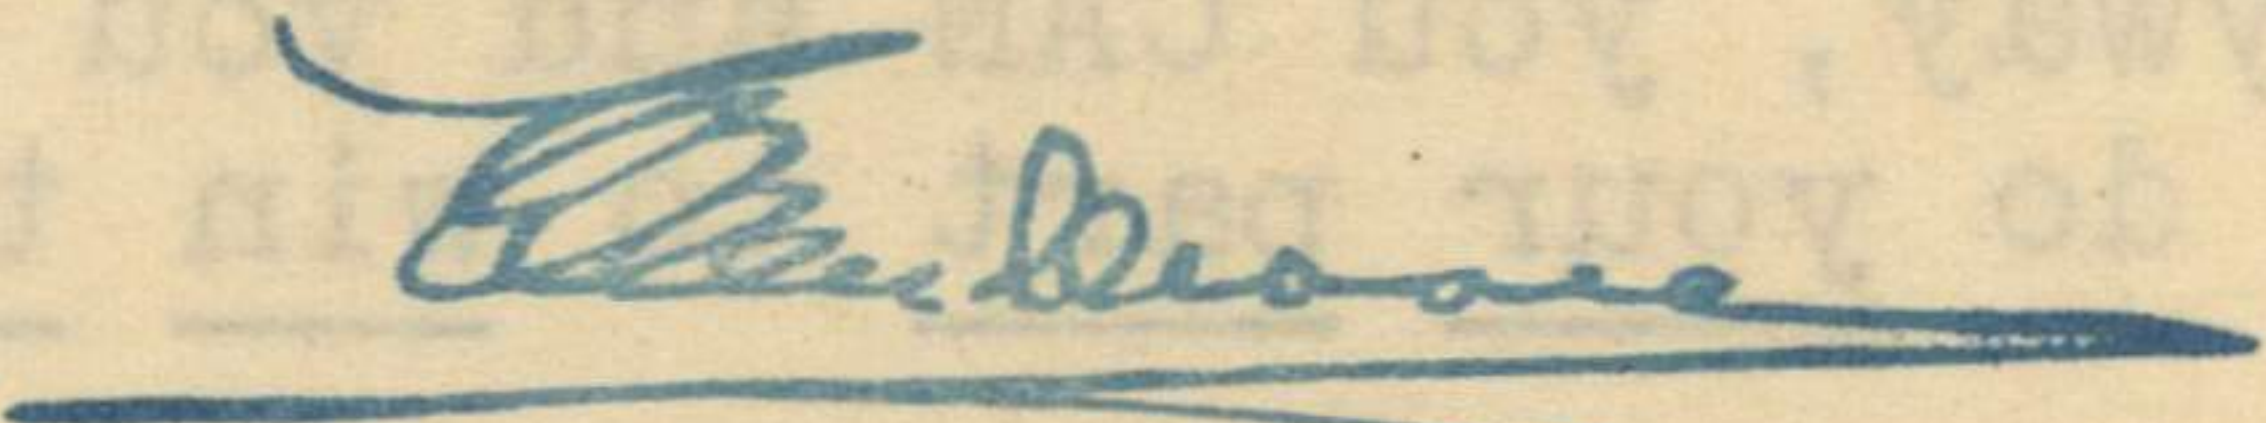

Won't you answer the call at our Winter Opening, December 7? Just one year to a day, you know, after Pearl Harbor. New classes will be organized then and many young women will be entering. And remember, we have only a ONE-DAY Christmas vacation, just Christmas Day. It can be arranged for you to take a week or even two weeks, but school will run right on for those who wish to remain and thus to lose no time. Time is such a vital factor these days. Our Army School runs right through the holidays (except for the one day.) Why should not the Civilian School do so, too?

So what do you say? Will it be December 7th? Or will you lose a month by waiting for the Mid-Winter Opening January 4? New classes again then and perhaps even a greater new enrollment.

But anyway, we do want an opportunity to help you during these most unusual and most critical times.

Yours for your success,

P. S. Our Army School requires forty instructors, four supervisors and an educational director. We have made our Mr. Leland S. Wood, former Executive Secretary, the head of the Army School and have transferred from our former business college faculty only five teachers with Coach White to be transferred at the end of our football schedule this week. All others are new and outside personnel. No, our civilian school is not being made to suffer, in fact, the Army School is teaching us how to further intensify and streamline our courses. The best of service awaits you in the Chillicothe Business College civilian school.

President.

December 7, 1942.

Ensign Maurice Cannady,
Naval Aviation Pre-Flight School,
Iowa City, Iowa.

Dear Maurice:

Thank you so much for your good letter of December 1st. I called Frank Allen and Harold Testerman and gave them the information, and passed on the good word to Reg Strait, our physical education instructor in this department who succeeded Dr. Larry Morehouse, who in turn succeeded Dr. Elbel.

There certainly was a big flock of candidates up there to greet Moon and Lt. Forsberg. I believe these officers had a good opportunity to look over a fine group of candidates. Strait, who formerly supervised physical education in the Chanute Public Schools, felt that he had a good interview and also that he had a good opportunity of making the grade. Many of them were thrown out, I am told, on account of the qualifications being very high.

I thank you for writing and I will definitely keep in mind the qualifications so that when we run across good men we will be able to tell them exactly what qualifications are necessary.

Wishing you and yours a very Merry Christmas and Happy New Year, I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Notified Frank S. Allen
Harold Testerman

NAVAL AVIATION PRE-FLIGHT SCHOOL
IOWA CITY, IOWA

Dec. 1, 1942

Dr. F. C. Allen
University of Kansas
Lawrence, Kansas

Dear "Doc": -

Just a line to tell you they are planning on taking some more men into this program. They are definitely going to set-up some more Pre-Flight schools.

Three officers from Iowa Pre-Flight will be in Kansas City, Mo. the 4th and 5th of this month to interview applicants. They will be located at 202 Finance Bldg. 1009 Baltimore Ave. Lt. Forsberg - Lt. "Moon" Mullins - Ensign Heisler, former assistant to Brown of Ohio State.

"Frosty" Hardace. I have written to Schoake and

NAVAL AVIATION PRE-FLIGHT SCHOOL
IOWA CITY, IOWA

notify your nephew, Frank Allen. I also thought you might have in mind two or three other K. U. graduates who have been out teaching and coaching for the past few years. I think it would be smart in not having too many apply.

The qualifications are as follows:

- 1) Men between the ages of 25 to 45 are preferred. Applicants below 25 and above 45 must be exceptional. Limits are 21 to 50 years.
- 2) An applicant must not be a candidate for V-5 cadet.
- 3) Applicants should have college degree.
- 4) Applicant must show successful development in the teaching or coaching profession.
- 5) Applicant must have a sound character record.
- 6) Participation in a variety of sports and interest in sports is desirable.

NAVAL AVIATION PRE-FLIGHT SCHOOL
IOWA CITY, IOWA

7.) Applicant should possess a virile appearance and officerlike qualifications.

8.) Applicant should have unquestioned loyalty and willingness to serve with enthusiasm in any capacity anywhere.

If you have a good man and he doesn't happen to have 20-20 vision — I think he can ask for a waiver. —

"Moon" Mullins use to be at Kansas, didn't he? If so, he should lean toward our Kansas graduates. — I certainly think it would be nice if we could get a few more of our men in this program.

Sorry this letter is in long hand but my office type writer was needed elsewhere so I am without. —

Our regards to Mrs. Allen and family.

Very sincerely yours.

Maurice Cammady
Ensign U.S.N.R.

THE COLLEGE PHYSICAL EDUCATION ASSOCIATION

FOUNDED 1897

Glenn W. Howard, *Secretary-Treasurer*

Ohio State University, Columbus, Ohio

Elwood C. Davis, *President*
University of Pittsburgh,
Pittsburgh, Pa.

To the Members of the College Physical Education Association:

I. It has been an honor and a privilege to serve you for the past seven months through the Association. The continuance of this service is now at an end. Following the conclusion of arrangement for my work here, the University of Pittsburgh granted a leave of absence and I now leave for service in the United States Navy. Decision to take this step followed the same sort of factor-weighting that all of us have been doing since our last Annual Meeting in Detroit - "where and how may I be of greatest service in the war effort?"

II. I would like to report that since December, letters have been written to the Secretary of the Navy and the Secretary of War, offering the full services of the Association. Letters of appreciation were received from both of these offices. If the Association's services, as contrasted to those of individuals, are needed by these officers, notifications will be directed to the Association. Certain other steps have been taken in an effort to make the weight of the Association felt. As time goes on, more definite information regarding these steps may be forthcoming.

III. Through our Secretary, Doctor Glenn Howard, arrangements are being made for the next Annual Meeting in December.

IV. My membership in the Association shall be kept active and it is hoped that all members including those who go into military service will keep up their memberships. In fact, would it not be advisable now for members to assist our Secretary in expanding the number of members of the Association?

V. Dean Carl P. Schott will carry on as your President for the coming months. I know you will aid him in effecting his plans.

VI. If progress is indicated by comparing professional recognition now and twenty-five years ago, some professional advancement has been made. It was not until the close of the last war that any appreciable recognition was given to trained physical educators. Today, it appears that good programs of physical education and athletics have resulted in considerable recognition by the various branches of the armed forces. More directly, Commander Gene Tunney is the first officer either in the Army or the Navy purposely to enlist men with degrees in physical education. He was the first officer to make such a requirement a standard for appointment in the United States Naval Program of Physical Training. Since this initial step was taken, several military and naval branches have organized commendable programs of physical training under trained leadership.

VII. Finally, we all recognize the vital responsibility of trying to make the civilian population physically fit. If this obligation is neglected, children, workers in the war industry, other adults, and young men who may soon be in military service will suffer. The members of the Association who elect to continue tackling this important duty deserve outstanding praise and credit in this effort.

Very truly yours,

/S/ Elwood Craig Davis
Lt. Comdr., USNR.

FC/jdg

COLLEGE PHYSICAL EDUCATION ASSOCIATION

Bulletin, November 23, 1942

The following information is being sent to you in order to announce some coming events and to communicate other items which may be of interest. Other bulletins may be issued as needs for them arise.

Annual Meeting

The regular annual meeting scheduled for New York City during the Christmas holidays has been cancelled. The Executive Council following the Federal Government's request for limitations on travel has abandoned the national meeting this year.

Since physical education is in the nature of an essential service during war time as well as peace time it is desirable that the professional people in the field have some opportunity to get together for discussion of their problems and for exchange of ideas. Plans to hold thirteen regional meetings in the nation have been made. In each region a member of the Association has been asked to organize the meeting. Physical and health education people from ALL the colleges and universities are invited to attend these meetings. It is our earnest desire to have as many institutions as possible represented at these meetings. Meeting sites have been chosen with a view to minimizing the problems of travel and of housing. Programs for local meetings will be announced by the program chairmen for the areas.

Members in Armed Services

A number of our members have entered military service. If you are a member of the armed forces or if you have taken a new position will you communicate that information to the Secretary immediately, being sure to include ~~your~~ address.

Membership of Men in Military Service

Members who have entered the Armed Forces should retain their membership in the Association. Your continued support is needed. The members who are not now in college work may keep abreast of developments in the field through the Proceedings and other supplementary materials.

Annual Proceedings

The Proceedings will be published this year as usual. Materials from the regional meetings should provide interesting and worthwhile content for the 1942 Proceedings.

Dues

In the past those who attended the annual meeting paid their dues at that time. This year all dues payments will be made directly to the Secretary, Glenn W. Howard, The Ohio State University, Columbus, Ohio.

Special Duties

Many members are doing special work now in connection with war work and in addition to their regular teaching and administrative duties. The Secretary will appreciate your sending a brief statement concerning any work of this type which you are now doing.

High School Victory Corps Program

The High School Victory Corps Program set forth by the U. S. Office of Education is being adopted rapidly by the high schools. Physical education has an important part in the working of this program. Colleges and universities who are training teachers of physical education will be interested in preparing their students to render the best service in this Victory Corps program. Since undergraduate men are unlikely to enter the teaching field now it is probable that trained women will be used to do a great deal of the needed physical education work for boys, as well as for girls, in the public schools.

It will be interesting to observe whether or not, with this emphasis placed on physical fitness, some of the time previously allotted to physical education will be taken for the doing of other activities in this Victory Corps. Members of the Association may be of service to state departments of education as well as to local school officials in evaluating the sort of activities urged for the physical education period in the public school.

Reports to Wartime Commission

A committee of the Association has made reports to the Wartime Commission of the U. S. Office of Education on the subject of Physical Education and Health Instruction in Colleges During the War Period. These reports will appear in materials sent from the U. S. Office of Education to college administrative officers.

Win the War

During the times when so many unusual problems face the various professional areas of the colleges and universities it is necessary that sound judgment be available and be given freely. It is hoped that the members of the Association as well as all other professional personnel in the college and university physical and health education programs will lend themselves to making physical and health education serve the purposes of both military and civilian groups striving to win the war and to maintain national integrity.

Send It In

If you have any information concerning your own activities or those of your institution relative to meeting the demands and solving some of the problems of the present situation you are urged to send it to the Secretary. Personal notes are most welcome. Some of the information, with your permission, may be used for future bulletins.

Glenn W. Howard, Secretary,
The College Physical Education Association
The Ohio State University
Columbus, Ohio

November 25, 1942.

Mr. John F. Carmody,
Shiprock, New Mexico.

Dear John:

I am delighted to do anything I can for you,
and am getting this letter to you posthaste. Lots of
good luck to you - I am sure that you will make a fine
officer in the Navy Air Corps.

It was good to hear from you and to know
something of your work at Shiprock.

With kindest regards, I am

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.

FCA: H

November 25, 1942.

To Whom It May Concern:

I am very happy to write in behalf of Mr. John F. Carmody, for six years director of athletics and head coach at Haskell Institute.

I came in close contact with Mr. Carmody during his tenure at Haskell Institute, and have a very high regard for him as a man and as a coach and leader of young people. He is a young man of excellent character and habits, has a very pleasing personality, and is intensely loyal. He had the high respect and admiration of the people in this community.

Mr. Carmody has a family, and has a great understanding of the needs of young people.

I am glad to recommend him without reservation or evasion.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

FCA:AH

DEPARTMENT OF THE INTERIOR
OFFICE OF INDIAN AFFAIRS
FIELD SERVICE

Shiprock, New Mexico
Nov 22, 1942

Dear Phog;

The Office of Naval Officers Procurement has requested that I make application for a commission as an instructor in Phy. Ed. (Naval Air Corps.)

Would you be kind enough to write a general letter of recommendation, addressed "To Whom it May Concern", and send it to me. This letter should indicate character, personality, standing in community, outside interests including sports, and describe attainments in business or professional life. — I was employed at Haskell Institute for six years as Director of Athletics & Head Coach — my attainments were not great but I tried hard —

How are things going — what about your BB team, going to be on top again — we miss Kansas but like New Mexico very well — have rather large job here, Area Principal for Shiprock Area — have two boarding schools & five day schools under my supervision — 200 pupils in these schools — 23 employees — lots of headache — miss athletics, first time in 27 yrs I have not had an active part in sports.

regards
John F. Carmody

AFTER 5 DAYS RETURN TO

H. J. G. M. Cress

108 Spring St.

CAMDEN, ARK.

105 Spring St.
Camden, Arkansas
July 17, 1942

Dear Doctor Allen:

It's about time I let you know how things are going in the army and what we are doing. We have been rather unsettled for some time now. We didn't know just where we would go after I finished at Officers Candidate School as it worked out, I returned to Maxwell for a few days and was sent on out here as physical director of a flying field here in Camden.

Dorothy is fine and seems to like Camden very well. Much as I like big cities, I'll get used to it before long I guess. This town is a little smaller than Lawrence.

The Junior Physical Training Director here is Chuck Gively who was an outstanding all round athlete at Denver University 1928 to 1932. We are busy now getting our facilities ready for the cadets, who have not yet arrived.

Dorothy got around to see her friends and a few of mine whom she was visiting. I would like to visit there myself, but this busy 7 day schedule is going to make it difficult to get away for very long.

You must be well along in summer school by now and have your softball league playing off their games. My summer school last year was crowded but very pleasant.

There's no special news, but I thought that I would write to let you know where I was - closing with best wishes for your continued success - remains
Sincerely Yours
John Press
