

The Junior Physical Training Director here is Chuck Gively who was an outstanding all round athlete at Denver University 1928 to 1932. We are busy now getting our facilities ready for the cadets, who have not yet arrived.

Dorothy got around to see her friends and a few of mine while she was visiting. I would like to visit there myself, but this busy 7 day schedule is going to make it difficult to get away for very long.

You must be well along in summer school by now and have your softball league playing off their games. My summer school last year was crowded but very pleasant.

There's no special news, but I thought that I would write to let you know where I was - closing with best wishes for your continued success - remains
Sincerely Yours
John Press
