

October 22, 1942.

Professor T. K. Cureton,  
Department of Physical Education,  
University of Illinois,  
Urbana, Illinois.

Dear Dr. Cureton:

I acknowledge with thanks your fine letter of October 16th enclosing a mimeographed sheet of your P.E.M. 60 Basic Physical Fitness course; also the announcement of the University of Illinois requirements in physical education for men, for which I thank you very much.

This is very interesting. I was hoping that Larry would be able to stay with us and help us work this out, but one month after he had come here he was called in the Navy's physical fitness program at Tucson. He has been gone two weeks and we were hard put to replace him, but we were quite successful and are happy about that.

Any additional data that you can furnish from time to time will be appreciatively received.

With all good wishes to you and yours, I am

Very sincerely yours,

FCA:AH

Director of Physical Education,  
Varsity Basketball Coach.
