

February 26, 1941

Mr. C.O. Cooper
Postmaster
Saluda, North Carolina

Dear Mr. Cooper:

I am sorry that I have delayed answering your good letter of 8th instant regarding your son who is affected with a bad knee.

I have had two sons playing on the basketball team here at the University of Kansas, and I can appreciate your interest in your son's activity.

I do not have a map before me, and do not know where Saluda is located, but one of my former athletes, who was athletic director and football and basketball coach at North Carolina State, Raleigh, North Carolina, is now practicing in Raleigh. His name is Dr. Raymond Sermon.

I recall that when Dr. Sermon was in school he suffered a very bad knee injury and we took care of him and put him back in shape. In fact, he later went to Springfield, Massachusetts, Y.M.C.A. College for his advanced physical education work. While there he was injured, and he came back and asked me to fix his knee. I work on many athletes of all sports and have had fairly good success. I am a physician and I have made my specialty the treatment of athletic injuries.

You mention that you have had several feelers from colleges for your son. Doubtless you will have many more. We never solicit athletes. But due to the fact that I have coached twenty-five years and have had two sons of my own on the team, this has caused me to take a very definite interest in the boys and not to use them for what you can get out of them, but rather to emphasize college work, which is, after all, the very thing that will make them a success.

Many boys choose the University of Kansas as their school because they feel I can keep them in shape should they have an injury. Only last Saturday night we had three of our regulars injured in a game at Columbia, Missouri. Kline, our big guard, had a severe hip and knee injury. Sollenberger, the other guard, had a sprained ankle; and Bobby Allen, my son, received a severe charley-horse. That was only last Saturday night that these boys received these injuries in a very rough game at Columbia. We played Kansas State here in Lawrence last night and we had these boys in nearly tip-top condition. So, you see, we do pay a great deal of attention to athletic injuries and their care.

North Carolina is a long way from Lawrence, Kansas, but we have visited the Sermons in North Carolina twice, and while I do not know that I will be driving East this spring, if I should, I would consider it a pleasure

if you could find a convenient time for me to see your son. Of course, I would make no charge, as I do not expect payment for treatment of high school boys. Please write me and tell me where your town is located in regard to some of the larger cities.

From the way you describe your son's knee injury, I think it is the nerve supply to the knee, just a weakening of the ligaments, and when you give it a little rest it will improve. Therefore, I do not believe that it may be so serious but that someone who understands athletic injuries could help your son very much.

I would be glad to hear from you at your leisure.

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball Coach

CHARLES O. COOPER, POSTMASTER

SALUDA, NORTH CAROLINA

Feb 8th 1941

Dr. Allen, Coach,
Univerity of Kansas,
Topeka, Kan.

My dear sir:-

I have read the attached article with great deal of interest for the reason that I have a boy affected very much the same as this Howard Engleman. He is 17 years finishing High School this year and is the outstanding player in Western N C circles from both floor game and scoring, this is granted by all opposing coaches; however he has a knee that was injured once and doctors say nothing very bad wrong- but in about every fourth game it gives trouble and have to leave him off for a game.

My reason for writing is that, I am asking if you will give me some information as to best treatment, if you will and advise me the cost will be glad to comply. He is 6 foot two and weights around 150 pounds, just lately grew up and now putting on weight, also is one of the best tennis players in Blue Ridge Conference of High Scool and is the best Base ball player, will play American Legion Ball this summer having just been make eligible by re-arrangment of territory. I have several feelers from Colleges for him; but they all want him to play Football- which I took him out this year, as this was where he first injured knee.

Assuring you ^{will} appreciate your reply, I am,

Sincerely yours,

C O Cooper

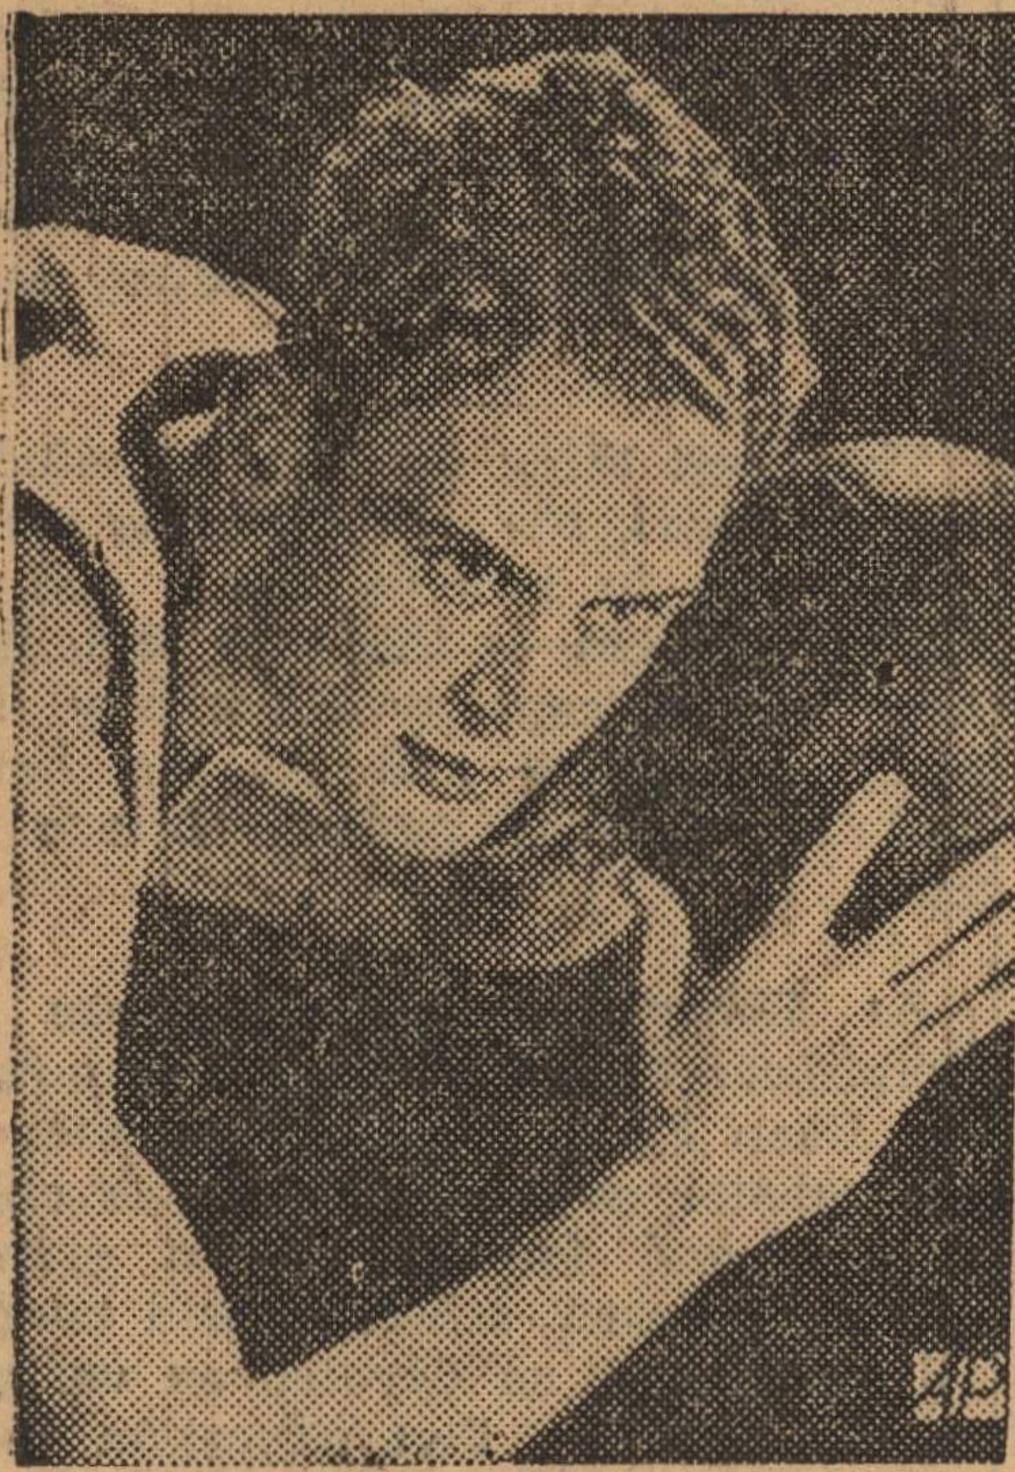

C

Court Stars Kansas Flash Threatens All Big Six Marks

BY HAROLD CLAASSEN.

Howard Engleman, the Kansas forward, fired at the basket on a recent road trip. The ball hit the backboard, slanted for the hoop, skidded around the rim and—plopped harmlessly to the floor.

The anti-Kansas crowd cheered. They considered it a moral victory

HOWARD ENGLEMAN.
Dr. Allen's Blond Breeze.

although their basketball worthies were being defeated by Engleman & Co. In that game the Jayhawk star scored 23 points and sank nine of 12 shots from the field of play.

Engleman, the blond breeze of Dr. F. C. Allen's latest Big Six title contingent, is challenging every conference scoring record. After four league games he was leading the marksmen with an average of 20 points a game in contrast to the 15.4 established in 1937 by Frank Groves of Kansas State.

He was averaging 8.25 field goals a contest. The record in that department is 6.4. He hadn't missed a free throw in the Jayhawks last two games.

27 POINTS TWICE

Twice he collected 27 points in a game, wiping out the Kansas record established as a player by his famed coach in the days when one athlete did all the free throwing for his team.

Engleman was "hot" as a sophomore, then went into eclipse as a junior with a trick knee that hampered his floor play and disturbed his concentration. Toward the end of the season he revived.

In the 1940 National collegiate playoffs he sank a last-second shot for the two points that eliminated Southern California. His general all-around play won him a first team berth on the NCAA All-America five.

This season Engleman has two sound knees, an improved and composed mental attitude—and a new shot.

It is a soft, one-handed hook shot from the side while driving straight ahead. It seems to cuddle up against the rim for a second before dropping through.

FOOTBALL IN HIGH SCHOOL

As a youngster he played basketball at Arkansas City junior high school. In his final three years on the high school quintet he was the sensation of the Ark Valley league, annually the toughest prep cage combine in Kansas.

While a high schooler he also dabbled a bit in football and track but since coming to Kansas the six-foot, 170-pounder has restricted his athletic endeavors to basketball and tennis.

March 20, 1941

Mr. C. O. Cooper
Postmaster
Saluda, North Carolina

Dear Mr. Cooper:

I am a little late in answering your letter of March 2.

Dr. Sermon at Raleigh is one of my old quarterbacks in football, forwards in basketball and catchers in baseball. After leaving Central Missouri State Teachers College, where I coached Dr. Sermon, he went to Springfield, Massachusetts YMCA College where he played there. He injured his knee badly while at Springfield and he came back to Missouri to have me work on it. We were able to fix it up so that he went back and played a wonderful season of football and an outstanding basketball and baseball season at Springfield. I had hoped to get East to visit Dr. Sermon, but at the present writing I am not sure.

I think it wise to use the knee brace put out by Lowe & Campbell. Mr. George Lowe died but Mr. D. Keedy Campbell, his successor, is still here in Kansas City. I knew both members of the firm very well. In fact, I am one of the few athletic directors that have bought from Lowe and Campbell for 25 consecutive years.

I might tell you that Dr. Sermon's home is in Independence, Missouri, just 50 miles from Lawrence here. If you would have an opportunity ever to write him or talk to him, I am sure that he would tell you that we have a wonderful school and that you would make no mistake in sending Charles to our University.

I appreciate your sending the picture of Charles along to me. He certainly is a splendid all-around chap. I notice that he is president of the student body, president of the 4-H club, president of a literary society, sports editor of the school annual, a four-letter man in sports and plays two instruments in the band. That certainly is a fulsome honor for the young man.

We have one of the most outstanding bands here in the United States. I am asking that our Registrar send you a catalog and I want you especially to look up our Engineering School. The Dean is Dr. John Jay Jakosky, and I am sending you the outstanding record of this very brilliant young Dean.

I am also having Mr. Russell Wiley, the Director of our Band, write Charles. Two years ago our band played in Washington, D.C. and they were the talk of the town. I am very sure that if Charles came to the University he certainly would make no mistake, and we would be immensely pleased to have him.

Do you care to have this clipping of Charles returned, or shall we keep it a while so that we may show it to Mr. Wiley and some of the other faculty members of our school?

It is not necessary for you to send a stamped envelope. We are very happy to correspond with you.

I am glad you like the article in the Saturday Evening Post. Of course, the writers say what they want to and we are the innocent by-stander.

One other thought, if Charles should come here I assure you that he would have no bad knees to bother him because we have the good fortune in being able to fix those up so that they bother us to a minimum.

With all good wishes, I am,

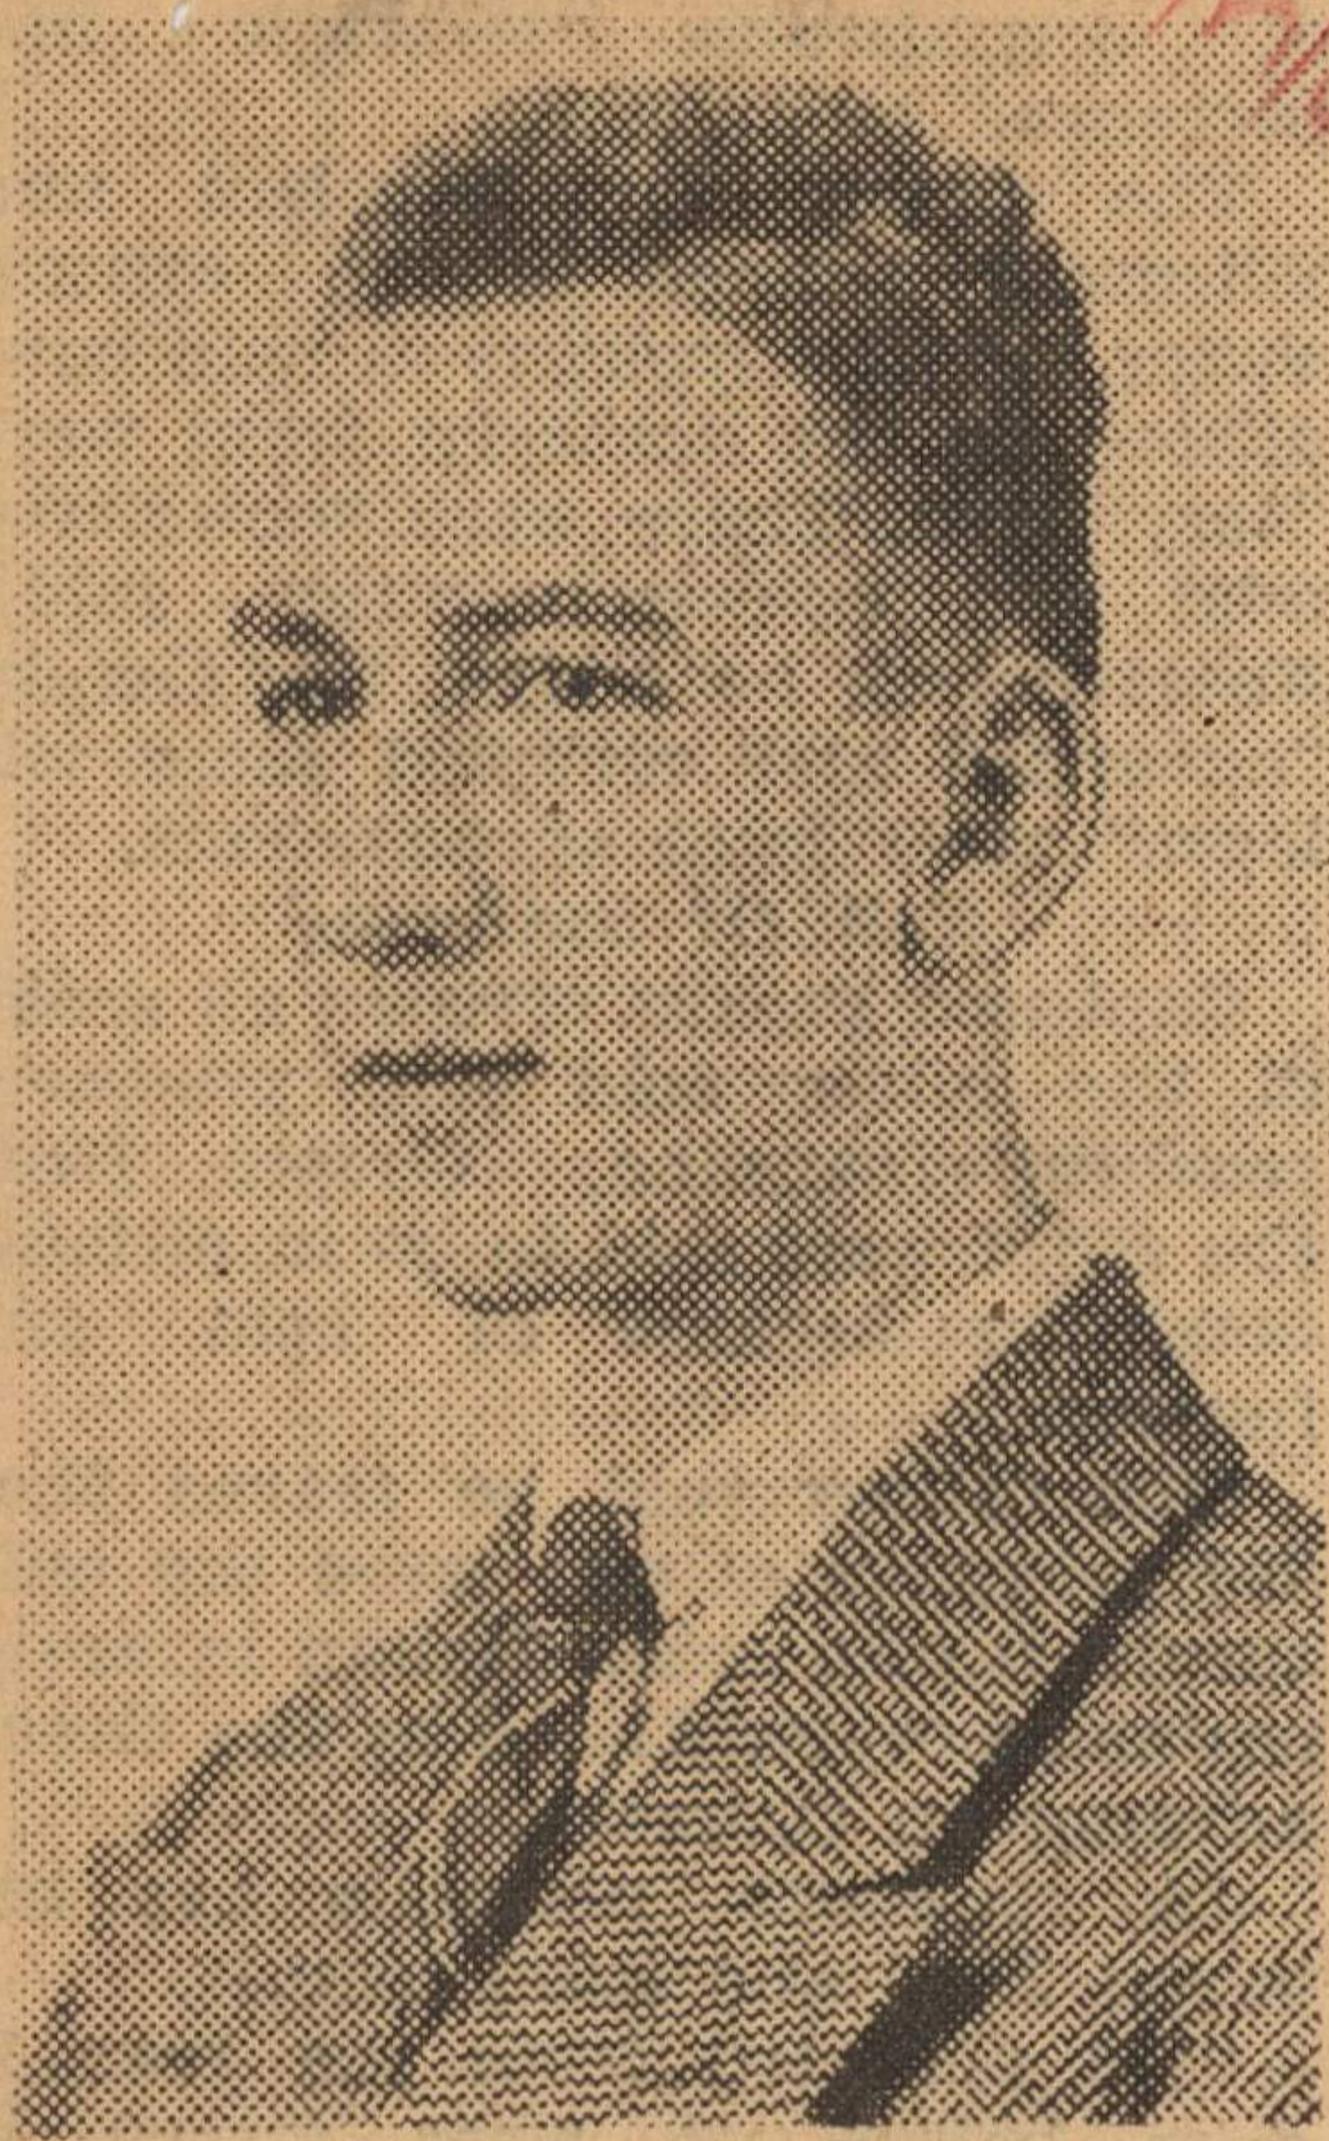

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball and Baseball Coach

ACTIVE IN SCHOOL

CHARLES COOPER

Charles Cooper (above), 16-year-old son of Postmaster C. O. Cooper and Mrs. Cooper of Saluda and a high school senior, has an unusual record in campus activities. He is president of the student body, president of the 4-H club, president of a literary society, sports editor of the school annual, a four-letter man in sports and plays two instruments in the band. He is carrying five subjects.

United States Post Office

CHARLES O. COOPER, POSTMASTER

SALUDA, NORTH CAROLINA

March 2nd 1941

Dr. Forrest C Allen,
Director of Physical Education,
University of Kansas,
Lawrence, Kan.

Dear Dr. Allen:-

Yours of the 26th; appreciated and enjoyed very much.

I might say that Saluda is located in Western N C between Asheville, N C and Spartanburg, S C, being thirty miles from each place. I should guess that in case you drove through to Raliegh you would either pass through Asheville or Spartanburg, S C, if you came by Atlanta, and if you would drop me a wire collect, it would be a pleasure to have my boy meet you at either place, or if this did not work out if you will let me know when you are going to be in Raliegh, would have him see you there. I know of Dr. Sermon's team at State, in fact have made several trips to see them play, unfortunetely they have been too successful in defeating my School in play (U of S C). I might say that we are considering N C State as they have the course that he is interested(Machanical Engineering).

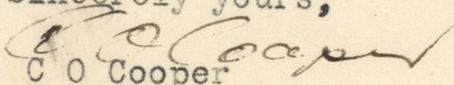

Your diagnosis of the knee agrees with local physician as the first time it gave away was just after a severe case of "flu" when I think he was played when too weak and it appeared to just give away and catch when used. Since writing you he had another case of "flu" and was confined for about two weeks and in this way got a good rest, and is now back in the game however; for protection we are using a knee brace put out by Lowe & Campbell and I am wondering if this would tend to weaken instead of strengthen, as he appears not to have any trouble without it.

He played his first game since return after three weeks out against Tryon, N C, which had run up good record of only five losses in two years, in fact was the team to beat us out of Championship last year, they have an outstanding player, for scoring points, (McFarland) and we started using the socalled " Zone defense" in first quarter, and this boy was getting through, and we switched to Man to Man so that my boy could take on McFarland and I am enclsing a clipping from the TRYON paper which shows how well he did, allowing 1 foul shot to pull out from a 10 to 3 score to win. Also I am enclosing another clipping to show that he is a good student, as well as athalett. In it all you have probably seen through that I am very proud of him and for this reason appreciated your help. I only wish it was nearer so that I could work out a plan to get him under your care.

Again, assuring you that I should be only too glad to hear from you at any time and most especially when you come this way.

Ps I read with great
interest item Sat E Post
regards your football

Sincerely yours,

C O Cooper

SALUDA HIGH UPSETS TRYON HIGH 25 TO 21

The Saluda high team, playing alert basketball handed the Tryon high quintet a 25 to 21 setback Thursday night at the Saluda gymnasium. The Tryon team got off to a flying start rolling up a 10 to 3 lead in the first quarter which the Saluda team overhauled during the second stanza and left the score tied 11 all at the half. The Saluda team led by Cooper who scored 16 points played aggressive ball to take the play away from the Tryon boys. The local team was apparently weak on free tosses getting only one out of 11 chances. The game was somewhat marred by rough play, a total of 23 fouls being chalked up on both teams.

Tryon (21)	Saluda (25)
McFarland (5)	L. Thompson (1)
Jackson (2)	Burford (1)
Vining (0)	Holbert (2)
Taylor (8)	Cooper (16)
Melton (6)	J. Thompson (3)
x x x x	Pace (0)
x x x x	Boling (2)
x x x x	Kimball (0)

Referee: Crawford (Clemson).
 Timer: McCallister (Saluda).
 Scorer: Mrs. Winget (Meredith).

Score at half: Tryon 11; Saluda 11.

A son was born this morning at St. Luke's hospital to Mr. and Mrs. Earl Weaver of Tryon

CAMBRIDGE, MASSACHUSETTS

WILLIAM J. BINGHAM
Director of Athletics

March 8, 1941

Dr. Phog Allen
University of Kansas
Lawrence, Kansas

Dear Phog:

I am trying to get information concerning "Safe-Play" goggles designed and sold by Means and Ryan of Beloit, Wisconsin. How many of your varsity used them? What team (first, second, third) were they on? How did they like them? Do you expect to use them next year? Have you tried any other solutions to this problem and were they more or less successful than the goggles? We have used the face mask attached to the headgear sold by a firm in Terre Haute, Indiana in conjunction with shatterproof lenses. I'd appreciate any further information you can give me on this subject. Do you know of anyone out there who has had experience with the contact lenses which fit directly on the eyeball?

This certainly is a grand place to work and a wonderful place to live. We have been very happy here.

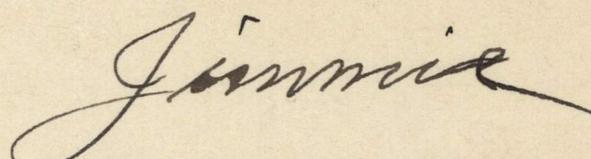

Our spring practice starts the 17th and if you think these goggles are any good, we will probably try them out this spring.

Who is the trainer at K. U. now? How is Dees getting along at the University of Nebraska. Where is Tiny Moore?

Give my respects to Del Davidson, Ed Elbel and my other friends there who were so kind to me. Tell Milt and Bob hello for me.

Best wishes to you and yours.

Sincerely,

James M. Cox, Trainer

JMC:O

Mr. Frank Cramer
The Cramer Chemical Co.
Gardner, Kansas

Dear Frank:

Thank you very much for your useful contribution of Athletic Stringent.

I have been using this stringent both morning and evening just before going to bed and right after getting up in the morning for some five years, and I want you to know that I think it is fine for an irritated throat. I always have an irritated throat because of too many after-dinner speeches, too much yelling at basketball practice, and at basketball games. This leaves my throat in a bad way.

Now I will be glad to use this new formula of tannic acid and I will give you a report on it. I thought your other product was fine and if this is an improvement over the other, then this is indeed most welcome.

I appreciated your Christmas remembrance. Mrs. Allen and Eleanor enjoyed the cold cream and Bobby and I have enjoyed the shaving cream. Frankly, I think your shaving cream is the best that I have used, so if you want to be generous, you can rest assured that these two lines will receive thanks from the Allen household.

With appreciation, I am,

Sincerely yours,

FCA:lg:mln

Director of Physical Education and Recreation

The CRAMER CHEMICAL COMPANY
MANUFACTURERS AND EXPORTERS

GARDNER, KANSAS
February 27, 1941

Dr. Forrest C. Allen
Athletic Dept.
University of Kansas
Lawrence, Kansas

Dear "Phog":

Attached is a pint of our Athletic Stringent. We are sending this to you to take home and use personally, so that you will know what is given to your boys. There is one change in the formula - an addition of Tannic Acid. This makes the finished product not quite as pleasant to the taste as it was, but probably five times more effective. Try it out and let us know whether you prefer this or the other formula for your players.

If there is anything in our cosmetic line that Mrs. Allen or you would care to have, just let us know by return mail.

Kindest personal regards and best wishes for your continued success.

Very truly yours,

Frank
THE CRAMER CHEMICAL CO.

not pretend to be a business woman , I have hesitated to sign up with Young and Rubicam, which is one of the largest agencies. I do not intend to do so unless I come to the point where I can see no other way. It seems to me that everything is in their favor and that I have no protection at all. I will enclose a blank that you may see what they seem anxious for me to sign.

As I work, I have to write instead of storming the agencies in person. I have written to a man in the William Morris Agency, which was suggested as the best by Lord & Thomas. I hope to hear from him tomorrow.

It would not be infringing on the copyright of the article in the Post if you gave me the facts written up there, would it? Or maybe you have some other data fully as interesting. I am so new at this business that I do not know as yet whether an agent wants a few sample programs or prefers to have it done by his own writers.

Thanking you again for your most kindly co-operation and encouragement, I am,

Cordially yours,

Eva Chandler

February 22, 1941

Mrs. Eva Chandler
1567 Virginia Avenue
Glendale, California

Dear Mrs. Chandler:

I have just returned from Columbia, Missouri where we played the University of Missouri in basketball last night, and I am answering your letter of the 16th instant. I can understand that other people besides basketball coaches and directors of physical education have their troubles.

I am returning the blank which you sent me from the Young & Rubicam, Inc. I thought perhaps you would want this for your file.

I do not think it would be infringing on the copyright of the article in the Post if I gave you the facts written up there. However, if you make progress with this thing and have need for it, there are plenty of interesting sidelights that I can give you that are just as good as this one.

Doubtless the Glendale Public Library has a copy of Better Basketball, written by me. This text is published by the McGraw-Hill Book Company. In the last part of the book I have written a chapter on "The Tales of Yester-years." These are stories of great games that our boys have played and there is always a high light connected with each of these stories, which I think are as good as the Saturday Evening Post story. If you get a copy of this book and scan over those stories I am sure that you will be thrilled with some of them. I know that we could use any of these without infringing on anyone because I wrote them.

Let me hear from you after you have read the stories.

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball Coach

Dear Dr. Allen:

Please do not judge the sincerity of my appreciation by the length of time I have taken to answer your most kindly letter.

Last October when I registered my idea with the Radio & Screen Writers Guild, I thought I had adequate protection. However, all it does is establish priority of registration. I find also that copyright laws were passed before radio, so I can get no protection there, except each separate program can be copyrighted, which does me no good that I can see. What I want is the protection of the idea.

First I applied to what I considered the two best advertising agencies asking them about handling the proposition. Lord & Thomas do not deal except thru agents. While I do

January 31, 1941

Mrs. Eva Chandler

Glendale, Calif.

Dear Mrs. Chandler:

I have been out of town much of late, and I have failed to answer your good letter of the 5th instant. I beg your pardon for the delay.

You have my permission to work this matter up, and I am happy that you can do much with it.

It so happens that today I am terribly rushed, but I am letting you know that I am willing to cooperate with you, and, if you still think well of the idea, you may reply to me; then I will sit down and give you some additional information that may enable you to elaborate upon your original idea.

This is merely a go-ahead signal, and I will await your reply.

Very cordially yours,

FCA:lg:mln

Director of Physical Education and Recreation
Varsity Basketball Coach

1567 Virginia Ave.,
Glendale, California,
January 5, 1941.

Dr. Forrest C. Allen,
Lawrence, Kansas.

Dear Sir:

I have registered an idea for an original radio program named "Obey That Hunch!" The details are not all ironed out but the hunches will be dramatized or narrated by the MC, materials used to be paid for by the sponsor. The article about you in the recent issue of the Saturday Evening Post contains material for an ideal dramatization in sports. I would like your permission to work this up, subject to your approval.

May work up famous hunches in history. In the history of sports, I have your name and that of Michael J. Kelly of "Slide, Kelly, Slide" fame. Durward Howes in his column says that Kelly, altho he was not dependable as catcher, infielder or pitcher at bat or on base was possessed of this uncanny sixth sense which told him what each member of the opposing team was going to do next.

If you are willing that I use any of your hunches for material, I would be most grateful for any suggestions for to be perfectly frank, I am not as familiar with sports as I am with "Hunches".

Very sincerely yours,

(Mrs) Eva Chandler

January 18, 1941

Mr. Glenn Charlton
Charlton Insurance Agency
Lawrence, Kansas

and

Mr. George Hedrick, Secy.
Chamber of Commerce
Lawrence, Kansas.

Gentlemen:

Last night I went out to Manhattan to scout the University of Nebraska vs. Kansas State College teams in action. While there I procured a program for the game. I am enclosing one for your inspection. It is rather a pretentious one, don't you think? But it is only similar to the one they have been getting out these past ten or fifteen years to my knowledge.

This season's Kansas State 1940-41 basketball program lists 89 separate advertisers, which shows that the community is either unsusceptible to high-pressure sales resistance for the smaller sport, or else a lot of people are interested in this "round ball" game, even though the Aggies have not showed much in the winning way for years and years. Perhaps they are hoping that someday they will win and they will have something to advertise. At least they are supporting the proposition.

You will recall that I had a meeting in the Chamber of Commerce room in early December with George Hedrick, Pat Maloney, Armin Woestemeyer, and Owen Carl. This was regarding the possibility of putting out a program for the University of Kansas which would capitalize on the long presence of Dr. Naismith's worth to the University. Also the winning teams that the University has had, combined with the great good that our other sports could do in rushing prospective high school students when they come in for our Big-Six games by giving each one of these visiting athletes a souvenir program as a memento. We would establish a definite contact and sales point with these eager high school boys.

You will recall that I specifically impressed the group present with the thought that we desired to make not one penny profit from the program, or any one of the athletes or any one else. We wanted a high-grade program that all the money could be put into the program and the benefit would come in getting better students and better athletes to the University. Our idea was to have pictures of Dr. Naismith, pictures of the Governor and the Chancellor, and our outstanding men of the University and the town in this program. It was not to be merely a program of advertisers.

I am sure if you will scan the pages of the Kansas State Program sheet it will be easy for you to at least hazard a guess that somebody is making a tidy sum from printing this program, because it is almost a program of advertisements.

Referring to our contemplated program, I might say that we have heard nothing further from our so-called worthwhile project, and I suppose that it has gone the way of demise, the like of many worthwhile local projects.

Someone has said regarding the membership and activities of the Lawrence Chamber of Commerce, "That as a race they are much taller and much fairer, but not as progressive as the Chinese."

So mote it be!

Very cordially yours,

Director of Physical Education and Recreation
Varsity Basketball Coach

Mr. Phog Allen

I got a boy here that is a great athlete and I thought you might be interested in him. The University of Okla. is trying to get him up there and I want him to go up there to K. U. This boy's name is George Smith. He holds the record in high school for the high + low hurdles which he runs in very nice time of 14.5 and 24 respectively. He high jumps 6.2 or 3, and broad jumps 22.8 or 23 ft. runs the 100 yd. dash in 9.7, 440 in 51, + 220 in 22.5

He is about 6 ft. 1 in. tall weighs about 175 and fast as a deer. So I thought I could get him in up there in my old fatherly house. So see if you can work up a deal and let me know as soon as possible so I can get him up there before he goes some other place. I'll bring him up myself if you can use him so let me know as soon as possible.

Muskogee, Okla.

Sincerely
C. A. Christian

1840 East 8th Street
Kansas City, Missouri

Dear Miss Carpenter:

There are two studies which have been completed by members of the staff here at the University of Kansas which might be of interest to your Research Section for the Central District meeting this spring.

One is "Student Recreational Choices" by Dr. E.R. Elbel, the other is "Reaction Time of Indian Students" by James H. Raport. Both of these men may be reached by addressing the University of Kansas.

Gordon Clucas, a graduate student here last year, also made a study on "Accidents in the St. Louis Public Schools" which might be of value. Gordon Clucas is now employed by the St. Louis public schools.

I trust this information will not be too late to be of use in planning your Research Section discussions.

Sincerely yours,

Dear Miss Carpenter:

This is to acknowledge receipt of your letter of October 21, regarding the program of the Research section for Fargo.

Dr. Allen is out of town at the present time speaking at the State High School Teachers Associations meetings, athletic sections, in Toledo and Milwaukee.

It was Dr. Allen's desire to answer your letter before he left town, but finding it impossible to do so, he has asked me to tell you that you may count on his taking up the matter as soon as he returns.

Sincerely yours,

Secretary to Dr. Forrest C. Allen
