Dr. Forrest C. Allen,
Kansas University,
Lawrence, Kansas

Dear Doctor:

Bill Forsyth was just in my office to tell me that Clifford Forsyth (no relation) who also played on our team was coming to Lawrence with him for the Relays, and I am sure he would appreciate an invitation from you too. In my very humble judgment he is not Big Six material, but is a nice clean boy.

I feel that you would be glad to hear that Bill and his parents are completely sold on "Phog" Allen, and will definitely send Bill to you next Fall. His father told me Saturday that he was going to write you and tell you that he was just sending the boy up to you to handle as you see fit, and that Bill was to understand that you were to be a father, Coach and any other capacity that you thought was necessary. With that kind of a beginning I think you can anticipate a most pleasant relationship beneficial to all concerned. Incidentally, Bill plans on staying at the Delta Tau house where he stayed before, so you will know how to handle that proposition.

I don't want to suggest anything improper, but I have talked to our mutual friend, Drew Hartnett, about making a Phi Psi out of Bill. Right now Drew is still so excited about his week old boy that he is no good for anything else. If it is possible and proper for you to show this letter to Mit or to mention it quietly to him, he might want to give the boy some attention this week-end.

With kindest personal regards, I am,

Sincerely yours,

Leaford F. Cushenbery
