

Teacher-Training Section
Health Education Division
AMERICAN ASSOCIATION OF HEALTH, PHYSICAL EDUCATION
AND RECREATION

April 17, 1940

Dear Colleague:

In times past you have expressed your interest in the improved training for teachers in health education. Because of this interest, we would like to call your attention to two meetings of the Teacher-Training Section of the Health Education Division of the A.A.H.P.E.R. on April 26 and 27. Both meetings will be held at 9 o'clock in the Stevens Hotel in Chicago. Consult your program for the rooms.

The Friday meeting will be devoted to a discussion of the problems of health education that teachers meet in the field. This will be a discussion meeting centering around the needs of teachers. We hope there will be a realistic discussion of the needs that teachers actually find. There will be no prepared speeches. A number of individuals have been invited to serve as resource people, but we are hopeful that there will be wide participation from the entire group.

The Saturday meeting will be devoted to a consideration of the problems teachers meet in sex education. Dr. Bertha Schafer of the Illinois Social Hygiene Association will speak. Following her presentation there will be opportunity for discussion. This meeting is a joint one with the Teacher-Training Section of the Physical Education Division.

We hope you will attend both of these meetings and contribute towards making them as profitable as possible.

Very sincerely,

ANITA D. LATON, Chairman
Bureau of Educational Research
in Science,
Teachers College, Columbia University

MABEL E. RUGEN, Secretary
School of Education
University of Michigan, Ann Arbor
