Lawrence, Kansas

Dear Doc:

This letter is a couple of days late because I have been out of town. Unfortunately, I was not in town on the two weekends that Kansas played here but, believe me, I certainly stayed close to the radio both times.

I certainly feel that you and the team are to be congratulated both for the fine showing you made in the Big Six race and in the outcome of the tournament here. There really is not a lot of difference between the winner and the loser of the final game in any tournament in my way of thinking; the main thing is to be one of the two teams playing in the finals.

You have a lot of thanks and honor coming to you from K.U. and this vicinity for all you have done for basketball in the past years and I think it is fine that you were able to put your team in the final game. My roommate in the Harvard Graduate schooldays used to be from Southern California and, of course, I had a lot of pleasure sending him a collect wire the night after you beat them.

I certainly hope things work out fine for you for the next season and congratulations again to you and the team. Best regards.

Yours very truly,

A. H. Cromb
