Dear Friend,

I have neglected writing to you because I realized that with the play-off, district and national tournaments, you would be plenty busy.

I want to thank you for helping me and writing the letters of recommendation to Mr. Thomas as you did. Even though I did not get to officiate the district tournament, I am very grateful to you for your assistance.

It would be rather difficult to rate jobs of that kind when considering the fact that my experiences to date have been rather limited in this field. I am very confident that next season will be much better and, after all, a good start is all I need. I hope to come up for the Relays. If I do, I'll see you then. Thanks for your many favors
Sincerely
Ken Caldwell
