My dear Phog:

I am home again for a few days but will be off again Saturday for another week of traveling. In fact, that's about all I do these days.

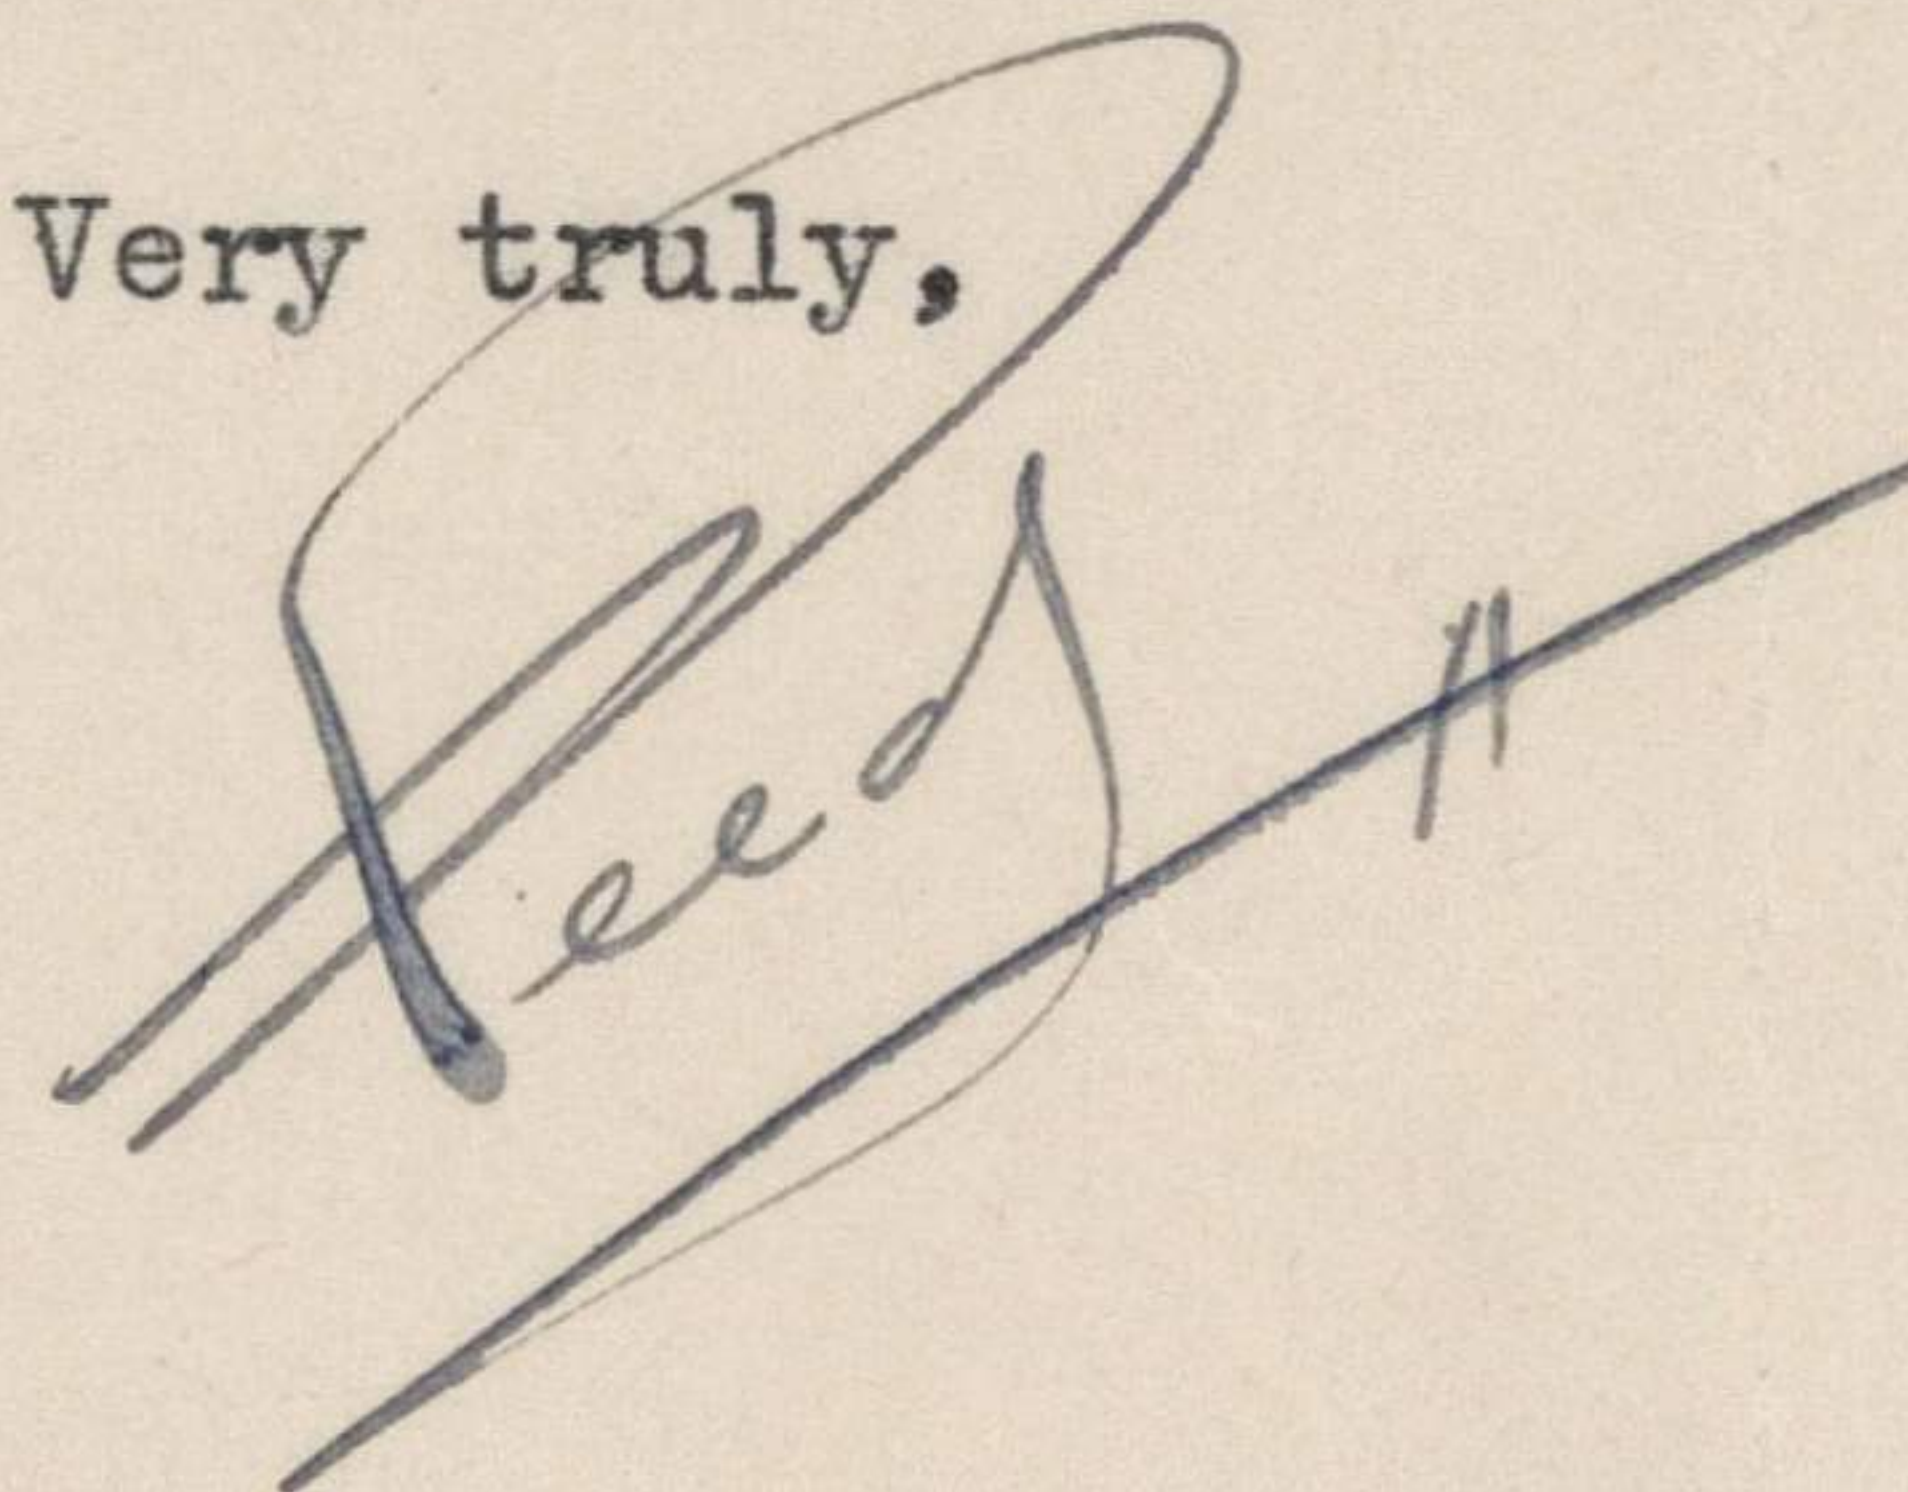

Free showed me the letter from you concerning your game, Goal'hi, and I see he has already answered it exactly as I would had I been here. I presume you are going to see to it that someone gets to Karl Royer before long with this proposition.

This note, though, is to especially thank you for taking care of Dorothy Jean and her trouble. I have a sacra-iliac hip myself that is none too good and I am wondering whether hers is the least bit serious. Would surely like to hear from you.

She wrote her mother and me about it and I was glad that she came to you. She said that she afterwards went to another doctor you recommended. I think she said his name was Dr. Bice and he said that he knew me in the basket ball days and that he had played in games where I refereed. His name is familiar but I don't quite place him.

At your convenience, though, I would like to hear from you and to know whether you think this trouble she has is anything that should be watched carefully or if it might prove troublesome in the future.

Very truly,

DKC:AM
