

February 6, 1940.

Dr. Glenn Cunningham,  
Peabody, Kansas.

Dear Glenn:

I have just received a letter from Bert Itoga, whose address is Kahuku High & Elementary School, Kahuku, Oahu, T. H., in which he writes as follows:

"I was asked to find out about Glenn Cunningham - whether he will accept an invitation to perform in Honolulu for two meets - May 11 and May 18 - expenses paid by either the A.A.U. or by A.S.U.H. (University of Hawaii). Ralph Olson is writing to various top-notch track candidates to perform in Hawaii. I believe two outstanding runners will be selected. The purpose is to stimulate more interest in track."

I wonder if you would write to Bert, even though you are tied up and cannot make those dates. I know he would be greatly pleased and appreciative of the courtesy of your writing.

I want to take this means to congratulate you on the phenomenal races that you have been running this year. Even though you have had some bad breaks by having these boys run faster than they have ever run before (this goes for you, too), you were just bracketed in one of those tough competitive breaks that go against you.

We have been experiencing a little of that ourselves. We are in the buggy, but I believe that for this year our basketball team is going to belong to the horse and buggy stage, while Oklahoma and Missouri may get one of those early Model T Fords and outdistance the buggy. Anyhow we are having a lot of fun.

With all good wishes, I am

Very sincerely yours,

Director of Physical Education and Recreation,  
Varsity Basketball Coach.
