Dr. Forrest C. Allen
U. of KANSAS
LAWRENCE, Kan.

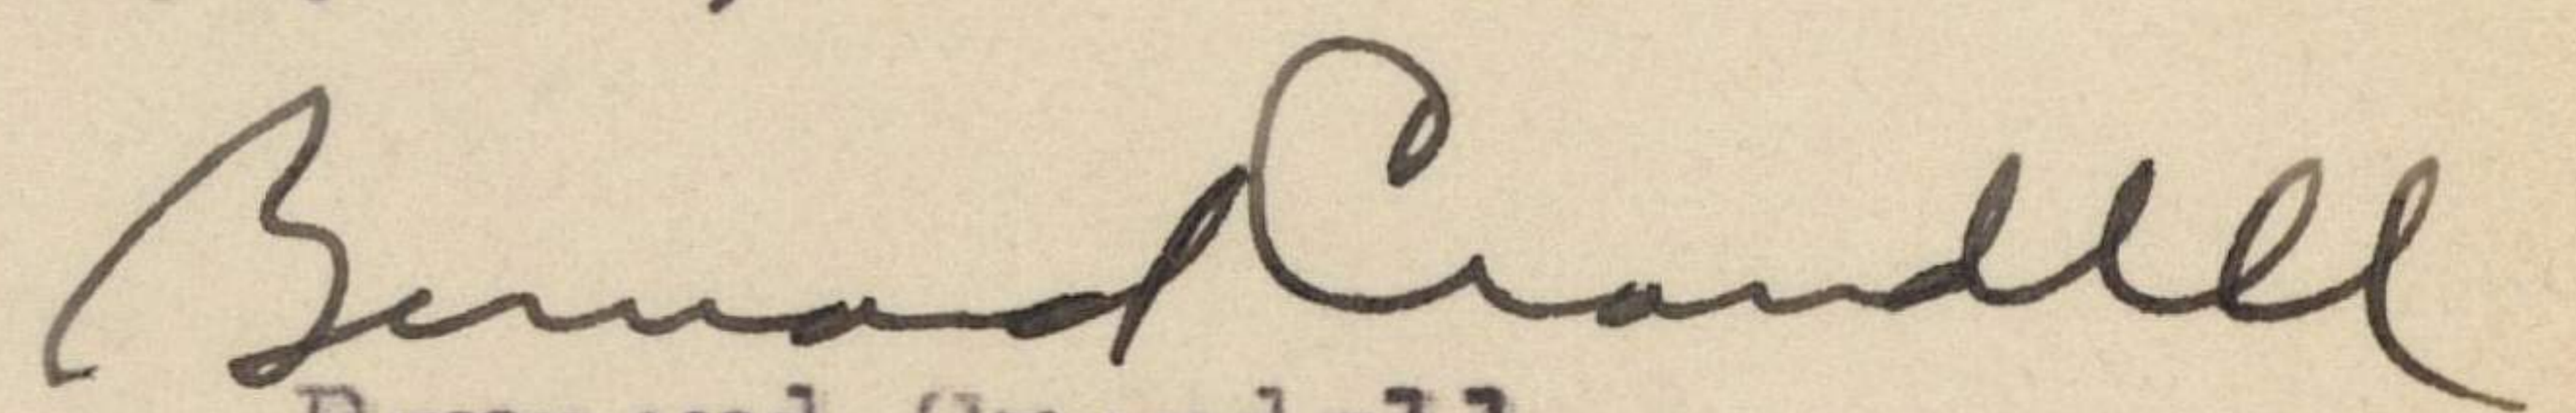

DEAR Dr. Allen:

The United Press would like to conduct a survey among members of the NATIONAL Basketball Rules committee ~~and~~ and get their opinions on any possible ideas for rule changes at the annual meeting.

As chairman of the research committee you stand qualified to give an opinion that probably will be influential among the others. Do you know of any things that probably will be discussed at the meeting?

If you would bother to send me a list of the men working with you and members of the rules committee that will vote at the meeting, we then could conduct a survey and find out what response last year's changes have made. Also finding out whether or not they will be changed again. I refer mainly to the abolition of the center jump.

Very truly yours,

BERNARD CRANDELL
