

August 12, 1939.

Mr. Maurice Cannady,
3789 Menlo Avenue,
Los Angeles, Calif.

Dear Maurice:

I enjoyed your very good letter which was received some time ago. You and your aunt have had some wonderful sight-seeing tours, and I know that you will come back much refreshed and revived.

By the way, boy, when you talk about California weather you just haven't got a thing on Kansas. This has been the most wonderful summer that we have experienced in a long time. You see the Kansans are using this word "wonderful" just like the Californians do. But really, it has been a great summer and we have had lots of fun with our recreational activity. Everybody says it has been the best ever, so we should be very happy.

I looked over your schedule and it seems very interesting. Your seminar sounds interesting, but I would like to have the lowdown report on this. You notice I didn't say your report on the lowdown situation! But I want you to tell me all about it when you return.

Thanking you for your good letter and trusting that you will return with lots of pep, and no desire to put any more notations on teachers' contracts (!), I am

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
