

January 20, 1939.

Mr. R. C. Cline, Jr.,
Clayton, New Mexico.

Dear Friend Cline:

Your letter of the 16th instant has been received by me and I am glad to know that you are interested in attending school at the University of Kansas. I had a talk with Mr. Gwinn Henry concerning you yesterday. We both agreed that we would be delighted to have you attend the University of Kansas.

I have always been very fond of the boys from the Southwest as they are both rugged and eager to play. I am very fond of fellows who want to get in there and hustle and play ball.

I am wondering what department of the University you would be interested in entering. We have a four-year course with a major in Physical Education which we think would appeal to you very much. Formerly men who made the varsity teams just went out and got a job coaching and counted on their experience on the varsity team to be sufficient to carry them through as coaches. Now provisions have been made that the individual have classroom instruction in all the major and minor sports, as well as the administrative side of coaching. I am sending you a pamphlet which will explain in detail our coaching school set-up. Of course, it is called "Physical Education major in the School of Education". You get a B. S. degree, but many boys still call it the coaching school. I thought you might be interested in seeing our set up here, and I hope that before school starts you can visit the campus and see what we have to offer our young men.

Each spring we have the University of Kansas Relays, which happens to be on April 21-22 this year. I am wondering if it would be possible for you to come up and see our campus at that time. We would be delighted to have you, and I know you would enjoy the Relays. Upon several occasions the University of New Mexico has been entered in our Relays here. Texas and most of the southwestern schools come up for this classic.

What are you doing at the present time? Are you working or have you been one of the individuals who has had difficulty in
