Dear Junior:

I have heard so many fine things concerning the play of yourself and Al Burgess. Everybody liked it immensely, and it was great of you to do what you did - it was not only good of you but generous, because I know that these things have put you and Al Burgess out a lot. But you have been swell sportsmen and you have done a fine job in a big way.

Although I thanked you personally, I take this means of formally conveying to you our utmost thanks. The University is proud of such sons.

Sincerely and appreciatively yours,
