Dear "Phog":

Certainly appreciate your letter of May 28, advising date of your coaching school. Bill plans to be there and very likely we will get him a room for the week, as both Frank and I are obligated to attend the N. C. A. A. Meet at Minneapolis during that time.

Bill is looking forward to a very interesting and instructive course with you and I hope you will feel free to use him in anyway you can. In fact, I think the harder you work these boys, the more they really profit.

Best regards,

Dear Coach Carmody:

I am enclosing copy of the letter I have just received from Miss Ruth Hoover in regard to your fountain pen. We have checked up with the janitor of the gymnasium and he reports having found no pen in the gym when he cleaned.

So it looks like one of those things. I am very sorry that we are unable to locate the pen. If it turns up later, of course, we will notify you.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Mr. Maurice Camady,

Yates Center, Kansas.

Dear Maurice:

I wanted to write Superintendent Schlagle, of Kansas City, Kansas, a letter in your behalf, but first I wanted to find out if you were successful in your interview with Mr. Harmon and Superintendent Schlagle upon the occasion of your visit to Kansas City just prior to commencement. Write me and let me know what luck you had and what reactions were yours after the visit.

I can use this information to advantage in presenting your case. My desire is to keep you in their minds so that when they are in need of some one you will be recalled for a job in their system.

To emphasize this thought, I have just had occasion to recommend to the Kansas City school system a man who has been out coaching two or three years, and I am very sure they are going to call him into their system this fall. He is an athletic coach.

I trust that your harvest is a fulsome and profitable one.

My kindest regards to you, Maurice. Count on me for any help that I can render.

With every good wish, I am

Very cordially yours,

Director of Physical Education,

Mr. H. E. Chandler,
Teachers Appointment Bureau,
University of Kansas.

Dear Mr. Chandler:

I want to call your attention to a very promising young man by the name of Gordon Lucas. Gordon is a senior in the College of Liberal Arts and Sciences, and will graduate at the end of this summer term. His major is sociology, and he has to his credit 58 hours of biological sciences. His minor is in Physical Education.

You will recall that I mentioned him in a conversation with you, and I am writing now because I am especially interested in seeing this young man in a school position if at all possible. His grades are excellent. I had him in two of my courses and I found him to have a very excellent background. Miss Dunkel has him in Community Recreation this summer, and she speaks highly of his ability.

I was especially attracted to Gordon's work during the picnic-mixer which was held in Robinson Gymnasium this summer. He has something that few physical education men possess.

I would appreciate it if you would definitely keep him in mind. If you are not well enough acquainted with him I would be glad to send him over for a conference.

Very cordially yours,

Director of Physical Education,
Varsity Basketball Coach.

Malden, Mass.

Dear Mr. Lord:

Thank you very much for your very kind remembrance in sending me a pair of basketball shoes from Chicago and two pairs from Malden. The rubbers will come in tip-top in rainy weather, and they are exactly the right size. I thank you for them.

I have already used the white low shoes for a basketball clinic in which quite an audience gathered the other evening. It was necessary for me to demonstrate the officiating and the technique of basketball, and I used these to good advantage in an all-white outfit. The shoes made the ensemble perfect.

It was very nice of you to do this, and I deeply appreciate it.

To Whom It may Concern:

This will certify that Mr. John F. Carmody, athletic director and coach of Haskell Institute, Lawrence, Kansas, has enrolled and has passed highly satisfactory work in my varsity Basketball course and my Treatment of Athletic Injuries course here at the University of Kansas.

Mr. Carmody enrolled on Monday, June 13, and completed his work on Saturday, June 18. The hours of these courses were from 8:30 to 12:00, and from 1:30 to 5:00, and from 7:30 to 10:00 p.m. daily.

The varsity Basketball course is an advanced coaching course which employs fundamentals in both offense and defense, as well as tactics and execution of play. The Treatment of Athletic Injuries course is designed to acquaint the coach with the anatomical and physiological structures and function of the individual and to enable him to have an understanding so that he may employ the principles of first aid and use taping and bandaging to the very best results to prevent athletic injuries should they happen, and if they do happen to treat them until a physician can be obtained.

Mr. Carmody's work was highly satisfactory in every particular.

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

I called Dr. Stoland to learn a little about this case, and he said that the number of applicants to the Medical School far exceeds the number they are able to take. Mr. ~~Klein's~~ *Boyd's* grade average is below "C", and there were a great many boys with better scholastic averages.

Dr. Stoland suggested that if Dr. Cary would write him he would be glad to give a full report on the case.

Raymond will pass the
word on to the
Chancellor.

August 1, 1938.

Dr. Floyd C. Cary,
501 R.-W. Building,
Hutchinson, Kansas.

Dear Dr. Cary:

Although I attended immediately to your request in your letter of July 18, I find that I have failed to write you. I beg pardon for this oversight.

We immediately got in touch with Dr. O. O. Stoland, who is a Ph. D., and secretary of the Medical School. He said that the number of applicants to the Medical School far exceeds the number they are able to take. He said Klein Boyd's average grade is below "C". He also stated that there were a great many Kansas boys with better scholastic averages, and that the committee has always selected boys from Kansas with the highest scholastic averages.

Dr. Stoland suggested that if you would write him he would be glad to give you a full report on the case.

Since we got this report from Dr. Stoland we called Mr. Raymond Nichols, the Chancellor's executive secretary, and asked Mr. Nichols to pass the word along to the Chancellor, that you were one of the first firm and staunch supporters of Governor Huzman for the candidacy for governor, and further that you were a very close friend of the Governor. I thought the Chancellor should know this, and if there are any favors to be extended to the citizens of the state I wanted that the Chancellor should have full information about this case.

Now, Dr. Cary, I did not go further with this, feeling that I had gone as far as I could. Please assure Dr. Boyd that I have no pull or drag with Dr. Stoland and the Chancellor. I am just doing everything that I can for you personally, and for Dr. Boyd and his son Klein through you. If there is anything that you want at any time that I can do for you, it will be an extreme pleasure to do it. I have just put the very necessary information before the people who have charge of the various departments and have left the rest to them and to you.

It was good to hear from you, and I want you to write me whenever I can be of service to you. With every good wish, I am

Very sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.

Dr. F. C. Allen,

Dear Fog:

Dr C. A. Boyd, of this city, has a son in the University, wanting to enter Medical School this fall. They informed him that they were filled and could not take him, Dr. Boyd is a special friend of mine and gives about one-half of my Anesthetic when I go to the Hospital for Surgical work. He is one of the highest type citizens and a good doctor living in the state of Kansas, and I would appreciate it very much if the University could take his son Klein. Not knowing the conditions of the University I would not know the cause .

Dr. Boyd ask me if I could help his son, Klein, enter the college, and I told him you were the only one I personally knew and I knew you would do anything you could to help him, so, I am sending him to you and if you could help him I would appreciate it very much.

I was very glad to hear about your successful team this year and I hope you can have another one next year.

Thanking you for the past favors and hoping we can work out some scheme to get Dr. Boyd's son, Klein, in the school.

Sincerely yours,

Miss Rosemary Casper,
Medicine Lodge, Kansas.

Dear Miss Casper:

Remembering my promise to write you some time during the summer regarding the possibility of your securing part-time work in this department, I am writing to tell you that we find there will be no vacancy in the Department of Physical Education this fall. I am very sorry that we are unable to find a place for you, but our budget allowance is very limited.

I trust it will be possible for you to find employment in some other department of the University so that you will be able to come to school. If you have not already done so, I would suggest that you make application for a CSEP job. If your high school grades are sufficiently high there is a possibility that you could be placed in a CSEP job, especially since you are so well qualified for stenographic work. If you are interested in this possibility I suggest that you write to Miss Martha Tillman, secretary of the CSEP, room 4 Frank Strong Hall, University of Kansas. She could give you the detailed information.

If we can be of any service to you please do not hesitate to let me know. I do hope that you may find it possible to come to K. U. this fall, and regret that we are unable to give you employment in this department.

With best wishes, I am

Very sincerely yours,
