A Message from

The Cramer Chemical Co. Gardner, Kansas

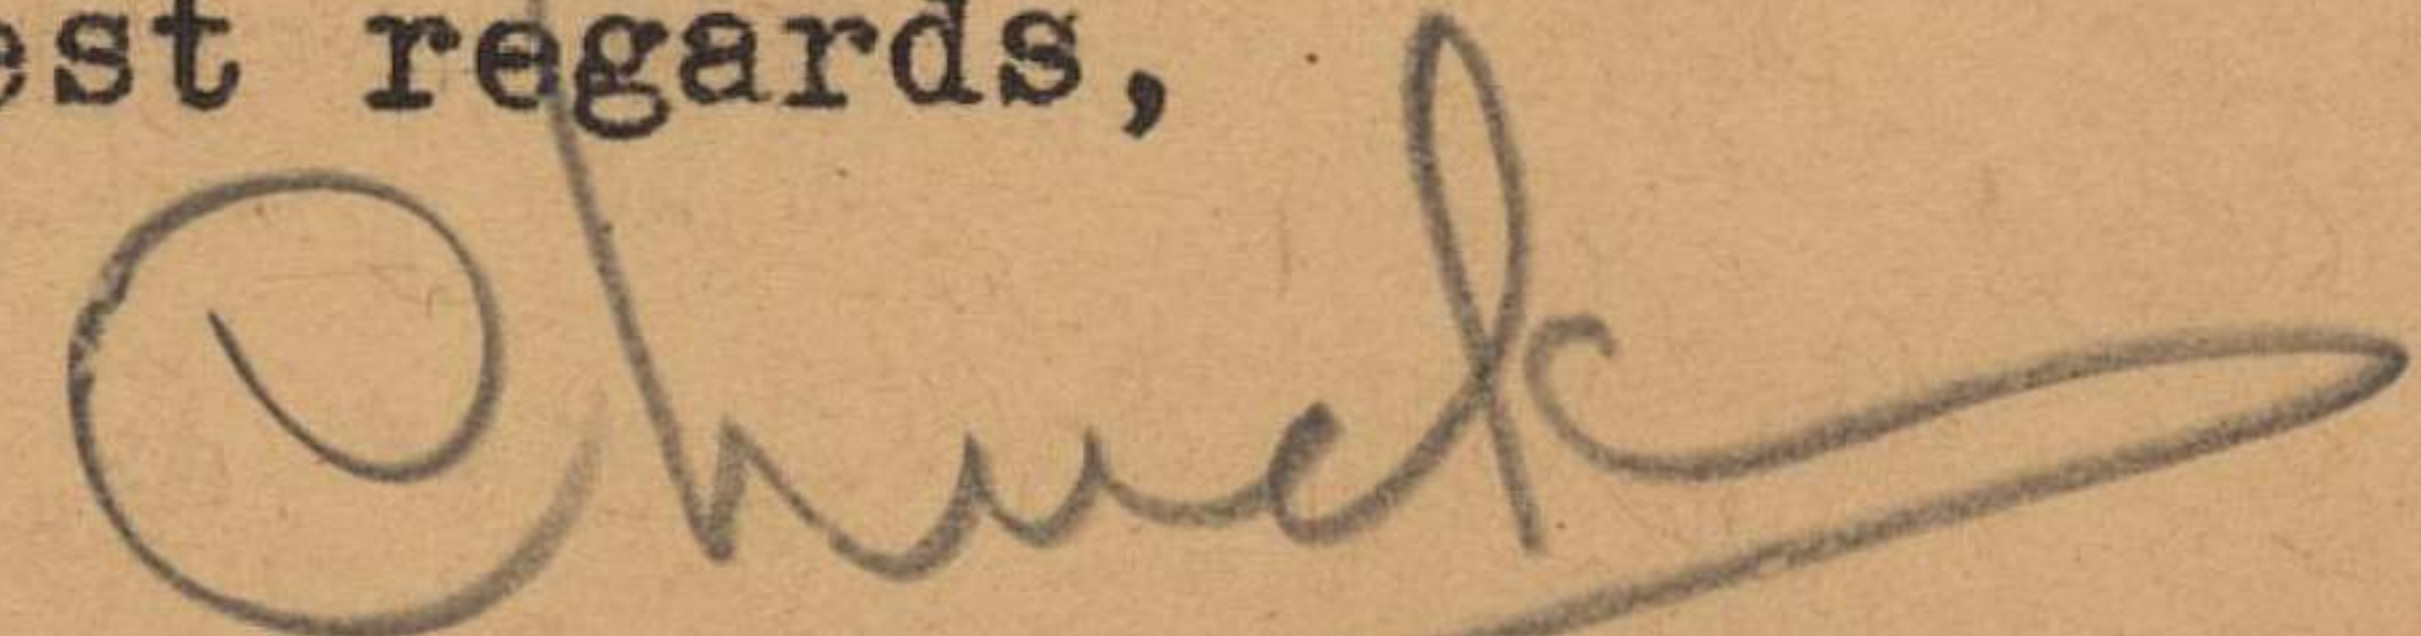

May 30, 1938

Dear "Phog":

Certainly appreciate your letter of May 28, advising date of your coaching school. Bill plans to be there and very likely we will get him a room for the week, as both Frank and I are obligated to attend the N. C. A. A. Meet at Minneapolis during that time.

Bill is looking forward to a very interesting and instructive course with you and I hope you will feel free to use him in anyway you can. In fact, I think the harder you work these boys, the more they really profit.

Best regards,

THE CRAMER CHEMICAL CO.
