

9/24/44

Dear Doc,

It was swell to get your letter and "Rebounds", and find that all is still in good condition at the old State U. I've been rather busy of late. If you can imagine it, I'm now working on a sick WAVES ward, and although at first I was pretty bashful, it doesn't bother me any more!

Most of my spare time is going to athletics. I'm managing one of the 6 intramural teams in a basketball and touch football league. Our b.b. team is using the incomparable K. U. - Allen style - A.P. 1, 2, + 3, etc., and as yet we haven't been beaten.

How is practice going? I understand by the "Lancer" that it will be rather limited until November. I'm looking forward to joining the squad then, for I can't seem to remove basketball from Position I in my mind. Do you know whether or not it's O.K. with the med. school
