"THIS IS MUTUAL"

February 28, 1945

Dr. Forrest G. Allen
University of Kansas
Lawrence, Kansas

Dear Phog:

We are in a "jam" getting paper for the March issue of "SWING" — and as a result, there may be no March issue!

If so, I am certainly going to be sorry about it — because in addition to the swell article which you had furnished us on gambling and college athletics, young Larry Winn wrote a fine story about you — and we had the new picture made in our Studio, as well as an old picture of you "in action" on the Coach's Bench from a former issue of the Jayhawker.

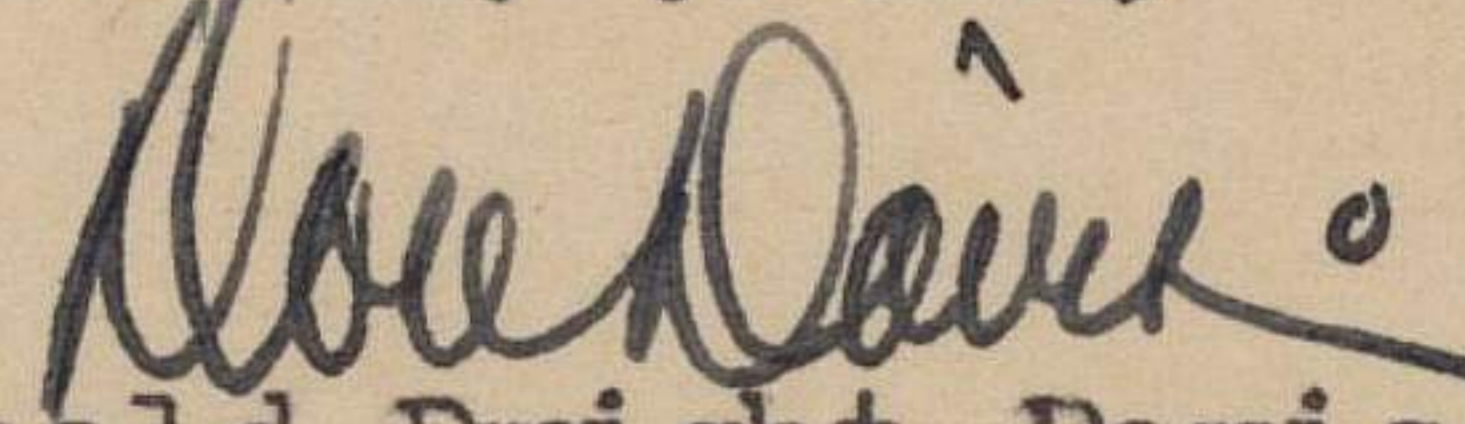

I am enclosing galley proof of your article, and the one by Larry.

We are afraid that if we have to miss March, the basket-ball material will not be timely in April — particularly, your own article.

However, Jetta is holding everything in type; and if we "miss" this year, next year at the climax of the basket-ball season we are going to ask you for a special article — and publish Larry Winn's article in the same issue.

Would this meet with your approval?

Cordially yours,

Donald Dwight Davis
