

PEMBROKE-COUNTRY DAY SCHOOL
WARD PARKWAY AT FIFTY-FIRST STREET
KANSAS CITY 2, MISSOURI

March 6, 1944

Dr. Forrest C. Allen
Robinson Gymnasium
The University of Kansas
Lawrence, Kansas

My dear Dr. Allen:

Ralph Wedin has told me of his conversation with you Friday night regarding George Dick, and the possibility that he may be interested in the physical education position, which will be open here in September. I am anxious to have an opportunity to talk with Mr. Dick and will be glad to come to Lawrence, if that is much more convenient for him, but hope that he may find it possible to visit Pembroke-Country Day School, in order that we may talk things over on the ground and he may have some firsthand impressions of the possibilities here. I do sincerely appreciate your interest and am anxious, as I imagine Mr. Wedin explained, to find a man whose influence with the boys will be first rate, who likes boys of high school age and the idea of working with them. The idea that he may be short on actual coaching experience is not so important as that he is anxious to do a good job and can be depended upon to work to that end.

Cordially,

Bradford M. Kingman
Bradford M. Kingman
