

May 20, 1942.

Mr. Bob Oyler,
729 Massachusetts St.,
Lawrence, Kansas.

Dear Bob:

I am sending you a small stipend for your kindnesses in officiating our two baseball games.

With all kindness, Bob, I want to say that I think you are a good football and basketball official. You played basketball and did a fine job of it, and I thought you were a corking good basketball official. The easiest game to officiate is football, and it does not take a definite knowledge of football to get along.

But in baseball you must have played it and know the rules, of which there are many, to be able to umpire.

Frankly, Bob, I thought you got over your head in endeavoring to umpire college baseball. I want you to know that I am most kindly disposed to you, but I think you out-reached yourself in endeavoring to officiate this sport. That is the reason we did not use you any more.

With all good wishes, I am

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.
