Dr. Forrest Allen
University of Kansas
Kansas City, Kansas

Dear Mr. Allen:

Our high school class is working on a Unit dealing with the use of liquor and tobacco. We are finding some interesting Material.

We shall appreciate it if you will help us in our study by answering the following questions:

1- Do you permit men on your football and basketball squads if you know they are using tobacco or liquor?

2- What has been your experience in the comparative efficiency of men on Athletic Squads who do not use liquor or tobacco?

3- Do you have any suggestions along this line of study that you would like to give us?

Thank you for any information you may forward to our class.

Very truly yours,

Florence Davis
