

Sept. 24, 1941

Mr. Dell Davidson  
Stadium

Dear Dell,

I have had Bill Winey, a student here on the Hill to look over our golf course and make recommendations. The enclosed notations are what he recommends and I want to do as much as is possible to improve the greens, fairways, etc.

On Nov. 6 Patty Berg and Helen Detwiler the national champion and the third ranking player respectively in women's golf will give a demonstration at 2:30 on our University golf course. Therefore, I am trying to get this in shape so that the students and visitors who watch the exhibition will be impressed by this nifty little course.

You will remember that a few years ago we had Glenn Oatman work his way through school by taking care of our course. This young Bill Winey comes on with the same. Therefore, I would appreciate it when he looks you up if you would give him cooperation in the way of men and implements that he needs. Winey is a fine little worker-very polite and I know that you will like him.

I would like that his suggestions be followed as closely as possible.

I would like to get about 25 gallons of oil and a load of sand at the earliest possible moment.

After you have read the recommendation and this letter I would appreciate it if you would stop in at your convenience.

Sincerely yours,

Director of Physical Education and Recreation  
Varsity Basketball Coach.
