

GRAND HOTEL & KURHAUS

Mürren, Switzerland,
Aug. 4/39.

Dear Doc:-

We are far up in the high Bernese Alps. This village is beyond the reach of automobiles or even horses. It is perched up on a mountain shelf or ledge facing as fine a barrier of snow and ice peaks as there is on this earth - I believe. From my window I can see four great glaciers streaming down the mountain sides. With my field-glasses I can spot chamois and ibex on the incredibly lofty and

and lonely heights opposite. I am doing some walking and minor mountain climbing.

So far, Europe seems less full of war-talk than the United States. France is very calm.

Mrs. Davis joins me in the best wishes to you, Mrs. Allen, and the family.

Take care of yourself.

Faithfully yours

W. W. Davis.
