

July 16, 1940.

Miss Catherine Dunkel,
1224 West 6th St.,
Coffeyville, Kansas.

Dear Catherine:

I still haven't definite word, but I talked to Miss Rupp, in the Chancellor's office, and she had not been informed that Dean Schwegler and I had signed your appointment blank. It seems as if Mr. Raymond Nichols has been out of the office much of late, presumably on his vacation. As he attends to most of those details Miss Rupp expected him to handle it. However, I pressed the case and told her we were quite anxious to know before the Chancellor left town. He is going to Hawaii.

So Miss Rupp got busy and called later to say that she had found the appointment blank signed by the Dean and by me, and that the Chancellor said he would sign it but he preferred that we make no mention of the fact until after the Board of Regents acted. So I have the pleasure of telling you that from all I can learn everything is set and that you should receive your appointment notice after the minutes of the Board are signed, which should be this week some time.

I am sincerely trusting that your stay here will be full of happiness and much pleasure and profit. I received a letter from Betty saying that she was a bachelor while her husband has gone to training camp. I know that Betty will get a decided thrill at the thought of you filling her shoes and I am very sure that you will do it although you may have some qualms about measuring up to your big sis. But you will also remember that she was a youngster like you are when she started. I am counting confidently on you doing the same splendid job that she did.

With all good wishes, I am

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
