Mr. Dudley Doolittle,
President, College of Emporia,
Emporia, Kansas.

Dear President Doolittle:

I acknowledge with gratitude your letter of October 30th in regard to the Council of Church Colleges' opinion of the strenuous nature of the basketball rules.

May I say that your organization is not alone in that belief. I am this day communicating the Council's resolution to each member of the Rules Committee of the United States and Canada so they may put this along with other protests on their agenda for very definite consideration.

Thanking you for your letter, I am

Sincerely yours,
