Gerald Tower.

Dear Sirs:

The enclosed copy of a letter was recently received in regard to the strenuous nature of the basketball rules.

There seems to be a general opinion among the church school and community teams that the game is too fast. I am sending this communication to you so that it may be included with other protests along this line, and so that it may receive consideration on your agenda.

Very sincerely yours,

Chairman, 5th District, N.C.A.A.
