

Dec. 15, 1938.

Dear Dr. Allen -

I thank you so much for your kind note. I assure you I had not questioned your position at all, but David was dropped before the grades were out, so I assumed it was done without your approval.

I am glad to note the lad's grades are coming up, and think the jolt may have been beneficial, together with the fact he has had his eyes fitted with glasses and is studying more.

I am grateful for your interest and helpful attitude, and hope for better returns by the time the next grades are out.

Sincerely yours,

Vera B. Droom.
