

February 2, 1939.

Mr. F. B. Toalson, Principal,
Dodge City Senior High School,
Dodge City, Kansas.

Dear Mr. Toalson:

I was on the verge of writing you and telling you how very much I enjoyed my connection with you and your administrative set-up of the clinic demonstration. I want to congratulate you on being the first to initiate a thing of this kind, and I am happy that you feel things went over in good shape.

There was so much to cover that it made it difficult in the short while I was there, but I did the very best I could in giving them the things that I considered the most vital.

When I was dictating the shortcomings of the teams I had only the notion that I would use them as notes. Had I known that the notes taken were to be transcribed and turned over to the coaches I would have made them much plainer. But because of the fact that I could not cover all of the notes, I suggested that these notes be given to the respective coaches. I received a copy of them, and while I am sure they will be somewhat helpful, had I had the foresight to have thought of this eventuality earlier they could have been much more beneficial. At any rate, I am glad that you were pleased and if you are pleased I am exceptionally happy.

Thanking you for your good wishes, and wanting to be remembered to my good friends with whom I had a splendid time, I am, with all good wishes to you,

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
