

This very situation arose this past season in Hoch Auditorium. The two clocks were different and the game was continued by the clock that showed the longest playing time remaining.

VI. a player of either team may legally call time out only when they are in possession of the ball. A captain of a team is usually the one who calls time out.
Or when ball is dead

VII. A legal dribble is one in which the player bounces the ball on the floor with one hand. An illegal dribble would be one in which both hands were used to dribble the ball or when a player would juggle the ball in his hand at the top of the bounce. A player cannot be dribbling along, come close to an opponent, loop the ball over the opponents head and continue dribbling.

Illegal starting of the dribble is when a player takes a short step with the ball in his hands before he actually bounces the ball to the floor. A legal starting of the dribble would be when the player actually bounces the ball to the floor as he takes the first step.
