Dear Dr. Allen:

I received this morning your circular letter in regard to the Community Chest campaign.

Of course I am in sympathy with the idea and will help all I can, but I am sorry you put my name on the mimeographed list, for I do not feel that I can do any active soliciting.

Please excuse me, therefore, from that particular activity. No doubt there will be enough other people to do the work in our own particular building.

Sincerely,

Jayce W. Kellogg
