

They sure give me a fit - but
even so I'm still enthused about
flying. I just finished an instru-
ments course & can see how
tough it would be to fly blind.

I heard from J.P. and he talked
about spending Christmas in a fox
hole. Also heard from Bill Bradford
who is over in England. It's
good to hear that Ray & Ralph
get an opportunity at O.C.S. They
really deserve it.

Wonder how Bob is coming along
and what Mit's doing now.
Give my regards to Mrs Allen
and Dean, Henry & the rest.
I still look forward to the rebounds.

Love,
Charley Black
