

Nash, and committee --

I am sending you a copy of a letter I wrote to Professor Kester on November 2, 1938

Pursuant to my discussion with you and the members of the committee when they assembled in Room 16 Fraser on Saturday, morning, February 28, at that time I told you that there had been reports to the Senate Committee on Physical Education and Athletics.

I am sending you a copy of a letter I wrote to Professor Kester on November 2, 1938, and also a copy of a letter I sent to the Senate Advisory Committee on November 2, 1937. This latter letter was written to the Senate Advisory Committee ~~xxxxxxx~~ ~~xxxx~~ so that they would know something about the University of Kansas Physical Education Corporation, the Athletic Board, and ~~the~~ its relation to the Department of Physical Education and the University. Many of the faculty members didn't know the inherent power which resides in the Department of Physical Education. This department controls the intramural program, the recreation program, and the required ~~xxxxxx~~ and elective courses in physical education.

Doubtless you will remember that when it was proposed by the Senate that I be the chairman of the Senate Committee on Recreation, Professor Posey recommended that it be referred back to the Senate Committee.

A deep sense of fair play and proper appreciation of the position of the several departments of the University, each operating in its own field, for the whole family, causes one to conclude that the proposal overlooks a fundamental point. The Department of Physical is a separately organized department in which training is done toward a special degree. I can see no more reason for a committee which must dominate that department's policy and conduct than a similar committee over the other separate departments of the University. No one proposes such a general committee domination of other departments and no reason is apparent why the Department of Physical Education should be differently treated by Senate Committee administration.

Trusting that this clarifies your thinking in this regard and aids the committee in some of the things they are attempting, I am

Very sincerely yours,
