

February 18, 1946

Dr. Paul B. Lawson  
Dean of College of Liberal Arts & Science  
University of Kansas

Dear Dean Lawson:

I acknowledge receipt of your letter of recent date concerning the alleged failure of gymnasium classes for two full hours all week to fill the requirements of the regular three-hour weekly schedule.

We do not have such an arrangement in the mens' department and never have had during or since the war. Equitation and perhaps corecreative activities, prior to the war, may have had this arrangement, but we have none of it now with the men.

As head of the department, I took this up with Miss Hoover and asked her to take it up directly with you.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
