

May 5, 1943.

Dr. Gilbert Ulmer,
Asst. Dean of the College,
University of Kansas.

Dear Dean Ulmer:

I have received a copy of Dr. Canuteson's letter of May 3rd concerning John Asher and his irregular attendance in physical conditioning.

I believe Dr. Canuteson is right when he says Asher is "in a constant state of instability". He goes out and plays golf quite frequently, but does not attend physical conditioning class. He was told early in the semester that golf would not be a substitute for physical conditioning.

Frankly, I do not see how he can get anything except an "F" in physical conditioning, due to his very irregular attendance.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
