

April 28, 1943.

Dr. Gilbert Ulmer, Asst. Dean,
College of Liberal Arts and Sciences,
University of Kansas.

Dear Dean Ulmer:

I have your note of the 21st instant asking that we advise you if John Asher is absent again this semester without presenting a statement from a physician to explain his absence.

I have checked with the instructor in charge of his class, and find the following: John Asher was absent on April 21, 23 and 26. He now has a total of 20 unexcused absences. He has not been in class since March 26th, and had 7 absences prior to that time. He has presented a hospital excuse for March 5th.

When we called Mr. Asher in the office to explain some of these absences he said that he had been playing golf in the afternoons, and desired that we let him substitute the golf for physical conditioning. We told him this was not permissible.

Very sincerely yours,

FCA:AH

Director of Physical Education,
Varsity Basketball Coach.
