Dr. Forrest C. Allen
Director of Physical Education & Recreation
University of Kansas
Lawrence, Kansas

Dear Dr. Allen:

I am very happy to have your letter of April 25th and note that you will be available to help us in our coaching school which we plan to hold August 18-22. We note that you will be available for this coaching school for a fee of \$50.00 a day and your expenses. This we will be very happy to pay. The school will begin on Monday, August 18th, August 19, 20 and 21st. There will be just four days of the school.

* 200.00
+ Exp.

We would be very happy to have you double up in both basketball and the treatment of athletic injuries. I am very anxious to get out our program and I should like to arrange for a detailed program which I can place in the hands of the coaches around about the 15th of June. Therefore, I should be very happy to hear from you in regard to the specific subjects that you desire to discuss, both in the matter of the prevention and care of injuries and also in the matter of the basketball school. I am trying very hard to arrange for you and Mr. Iba to be present since you gentlemen did such a splendid job when you appeared together at the Kansas coaching school last year when I was a very interested visitor. This might give you some thought as to the type of subject in the field of basketball which you would like to discuss. If you could, therefore, ^{send me a letter} verifying the fact that you will accept our invitation and indicate the specific subject that you might wish to discuss with our coaches. From all indications we will have a very large group as our boys here seem to be very enthusiastic over the idea of securing you for this school. I have given it some publicity in the paper with the idea that we were endeavoring to make arrangements for your appearance and we have had many very fine responses from that publicity.

Shaughnessy

I am also arranging with Clark ~~Shaughnessy~~ to be present for football and also Beanie Bierman. Both of them have indicated their willingness to be present, so I think you can see that we will have quite a fine array
