

March 10, 1938.

Mr. Charles Cramer,
The Cramer Chemical Co.,
Gardner, Kansas.

Dear Chuck:

Thank you for your good letter of March 7th regarding a notice in the First Aider, and also the augmentation of information delivered to me by Elwyn Dees.

Chuck, may I make a short explanation? It is necessary when any individual uses University equipment to gain permission from the University for holding the event and also to pay the University a proportionate amount for use of the building, lights, water, and so forth.

I am perfectly willing to do this, but the time is very short. How would it be to make a statement that "Dr. Forrest C. (Phog) Allen, Director of Physical Education and Varsity Basketball Coach, of the University of Kansas, will have two short-course master coaching schools - one in the east, the place to be announced later, and the second one held at the University of Kansas this summer, the date to be announced within the next issue of the First Aider. Allen will give two courses - his course on the Coaching of Basketball and his course on the Treatment of Athletic Injuries."

Just make it appear that this is an early announcement so those who are planning on taking such a course may know of it. I might say, Chuck, when I was down at Columbia, Missouri, I talked to Percy Gill, basketball coach at Rolla School of Mines. He asked me where I was going to hold a coaching school, and I told him one at the University of Kansas and the other one in the east.

Confidentially, I do not want it announced, but I am planning on Wittenberg College, at Springfield, Ohio, if all our arrangements go through satisfactorily. Gill said that he wanted to attend the school here at the University, as soon as I made the announcement he would arrange his dates to suit.
