Dr. Forrest Allen  
Head of Physical Ed. Dept.  
University of Kansas  
Lawrence, Kans.

Dear Dr. Allen:

I received your letter and the bulletin telling of the coaching school in which you are taking part. Thanks so much for the information. I am thinking very seriously of attending that school as I have always admired your technique of basketball and have read your "My Basketball Bible" and liked it very much and hope to read the new one when it comes out. I hope that you can get it out before the season begins next year.

I would like to meet you if I do get to attend the school sometime if you are not too rushed for time. This coming year will be my first year to coach in college. I am here in school working off my master's in physics. I will be coaching and teaching in a small school in Tennessee next year. My alma mater. That is the main reason why I am so very anxious to attend a recognized coaching school this summer--to get some useful information for the coming year. I have two years experience with high school basketball and liked it very much.

If I by any chance do go to Spirit Lake in August, I will like to talk to you about your new book and would like to hear from you sometime before then if you are not too rushed in your work and I would like for you to tell me two or three good books that I could buy that are the best for a beginning coach. Such information will be certainly appreciated.

Thank you so very much for your letter and I remain

Yours very truly,

Floyd Bowling .
