Mr. J.M. Sanderson
Athletic Director
Morningside College
Sioux City, Iowa

Dear Mr. Sanderson:

Thank you for your good letter of
the 26th ult.

My conflicts have been so numerous
and varied that I have not been able to answer your letter
sooner.

I would say that if you are able to
line up Noble Kizer of Purdue that you have a top liner for
football coaching.

You may not have enough time to sand-
wich a regular teaching course on The Treatment of Athletic
Injuries through the entire week but if you did you would not
only help your football, track and basket ball courses, but it
would be possible to show all of these coaches how to definite-
ly treat many of their athletic injuries.

I remember back in 1927 when "Pop"
Warner and I were at Superior, Wisconsin "Biff" Jones, then an
assistant at West Point, came out to every one of my Treatment
of Athletic Injuries classes which started at 8 o'clock in the
morning, and never missed a single lecture so interested was
he in this type of work.

I find myself in a peculiar position
trying to sell this course to you. Of course, if I do the
course I would expect added remuneration. Long ago I have
established a reputation for treating athletic injuries and
I am not trying to sell it for the love of the game.

This past summer I had a coaching
school with Matty Bell and he reminded many of the coaches at
that coaching school of the time when he was here at Haskell
Institute and sent many of his worst football injuries to me
when his trainers could not fix them up and invariably we had
enough luck and good fortune to fix them up for playing time.
