

NOTES

No Post Mortems - - with Imperial Equipment

When improper equipment results in clumsiness and injuries, the season ends with Post Mortems instead of Glory.

Imperial equipment is designed to give the greatest ease, freedom and speed compatible with adequate protection, and is constructed by highly skilled workmen from the finest materials.

The leading University, College, Professional and School teams have recognized Imperial superiority and adopted it.

A broad range of prices, due to the large variety of weights and styles in our line, put Imperial equipment within the scope of every budget. Write for our catalogue.
