In The Heart of Indiana Basket Ball

GENERAL INFORMATION

The Indiana Basketball School of 1933 is the Sixth Annual Clinic under the direction of Everett N. Case, and last year was the largest basketball school in America. The sessions this year will be held in Anderson, Indiana on the week of August 21-26.

Anderson, Indiana, a city of 50,000 population, is located in the east, central part of the Hoosier state, 32 miles northeast of Indianapolis.

The Anderson Country Club and the Municipal golf courses provide ample facilities for all coach golfers. The Municipal bathing pool and a fine bathing beach at Zoo Island Park provide for a daily plunge. The famous Mounds State Park is located at the edge of the city.

Classes will be held both morning and afternoon in order that the work may be covered in one week's time. Get-together sessions and round table discussions are included in the school schedule, giving every coach a chance to get the other fellow's view point.

The school is a very thorough one, touching on every phase of the game including the new rules. Facilities for room and board are ample in Anderson and prices are very reasonable.

A number of school boards and trustees permit their coaches to attend the Indiana Basketball School instead of the County Institute.

Private interviews may be arranged with instructors. This will help solve your individual basketball problems.

Practical demonstration work will be given and every coach is requested to bring his basketball togs.

Last season basketball mentors from colleges and high schools attended from all parts of the United States. The unusual high type of play by Indiana high school teams and the demonstrations offered were praised by the attending coaches.
