Dear Mr. Jones:

Thank you for your good letter of the 22nd ult., advising me that reservations have been made at the Sam Houston Hotel. The arrangement is entirely satisfactory to me and I appreciate your looking after this detail for me.

I am very happy that Andy Kerr is bringing Fred Swan with him. Swan is a great fellow and will do an excellent job of demonstrating line work.

I will be glad to cooperate with you in your Wednesday night, July 17th, entertainment. I think I can fit into this scheme in my talk so as not to make it one of a technical nature. I believe I know what the people desire and will be glad to cooperate to that end.

Trusting that you have a splendid school, I am

Sincerely yours,

Director.

Dear Dr. Allen:

I am writing to inform you that I have made reservations for you at the Sam Houston Hotel which is about a block and a half off of the campus. The best I could do was a connecting bath, as our hotels have not quite assimilated the idea of private baths but I believe that you will be comfortable as the hotel is both clean and cool. Your reservation is made for Thursday the eleventh and after you get cleaned up and settled, you can get in touch with me either at my home, phone 427 or at the Men's Gym, phone 451, depending on the time of the day. If I am not available, ask for Mr. Louis LeMay, my assistant for the summer and who is conversant with the Coaching School program. You and Kerr will be in the same hotel.

I have just received a letter from Kerr and he says that he is bringing Fred Swan, Warner's line coach, with him to help him in his demonstration work and I believe that that this will be an added attraction.

Our local Chamber of Commerce is attending to the entertainment end of the school and their committee has planned a Lyceum number on Wednesday night, July 17 with you and Kerr as the headliners talking on your respective sports. Since they seem to be so enthusiastic over the idea, I am planning to invite the entire summer school student body and the citizens of Huntsville and Houston, our neighboring large city, to attend this feature. The talk would have to be more or less general as the technical knowledge of the audience will not be particularly high.

Sincerely yours,

Mr. J. W. Jones, Director of Athletics

Dear Mr. Jones:

Thank you for your letter of the 18th inst. Your schedule as you have it outlined for my Basketball and Treatment of Athletic Injuries Course is entirely satisfactory. Will you kindly send me the schedule that you have outlined.

I will also appreciate it if you will secure hotel accommodations for my stay in Huntsville. Yes, I would like for you to make reservations for the night before for me. Thank you.

I sincerely trust that you will have a very large and successful school, and I pledge you my full cooperation in making it so. I know that some schools do a lot of mimeograph work, but so much of that stuff is dry material that, while it augments the teaching work to a certain extent, I believe that many of the fellows feel as if they have all the coach is offering when they get his mimeographed stuff. For that reason I believe we can get along without it unless you prefer it.

A one week course is a short course, and unless the coaches are on their toes and attend the lectures, they are apt to miss much. Many times a fellow, after being out the night before, will feel like, "Well, I will pass this one up" because he has the stuff in the mimeographed sheet. For that reason, I have never gone very strong on the mimeograph material. Unless you desire it, we will forget it.

wishes, I am

With kindest regards and best

Dear Dr. Allen:

In arranging our schedule for the Coaching School, we have arranged a period on one hour and thirty minutes a day for six days for the Basketball course. We expect this period to be an early one. We did not know how much time to give to you for your course on the treatment of injuries but decided to allot one hour a day for that course. I hope this arrangement will be entirely satisfactory but if you have suggestions to make, please let me have them at your earliest convenience.

It might be possible to run out some mimeograph sheets with an outline of your course or any material along that line that you care to hand out to the students provided it would not incur too great of an expense. In case you decide to have this material mimeographed, please let us have it at once.

It looks as if our school will be a success and we will have quite a few present but as you ^{know} it is impossible to estimate numbers in a school of this kind.

The hotel accommodations here in Huntsville are rather poor and I would suggest that you ~~may~~ allow us to make reservations for you so that you can get the best available. I suppose that you will want it for the night before.

Sincerely yours,

J. W. Jones.

Mr. J.W. Jones, Dir. of Phys. Ed.,
Sam Houston St. Teachers College,
Huntsville, Texas.

Dear Mr. Jones:

I have your letter of the 3rd inst.
and am very happy to hear from you.

I believe it would be very much
better to have the course on the Treatment of Athletic Injuries
early in the morning. I believe we make a mistake in starting some
of our courses too late. I don't know what time you propose to
start your first hour but I believe we could very nicely start the
training course at 9 o'clock. I think it would be well to have the
lecture room in the gymnasium. Then we could have the boys dress
for basket ball and follow this with my course in basket ball.

So many times I use the cripples from
the coaches of both football and basket ball to demonstrate with.
You would be surprised how interesting this course can be made by
using some old permanent injuries to the football and basket ball
men, such as bad knees, bad ankles, bad sacro illiac sprains down
the back, etc., for clinics. After you fix a few of these old time
injuries up so the boys can play without handicap, then you really
sell your course to the coaches. We will have boys coming in there
for miles with athletic injuries and of course, that helps enthuse
the coaches over what they can do. I always show the boys how to
fix these injuries and it is this type of cooperation that gets
across.

I will be very happy to respond with
that public lecture any time that you wish. I am sure that we can
get over in good shape and be an asset to your coaching school. I
am in your hands and perfectly willing to cooperate with you to the
fullest extent.

With every good wish, I am

Sincerely yours,

Director.

Dear Mr. Allen:

The information for advertising purposes has arrived but we have held up the formal announcement of your connection with our school until we have definitely signed up a football coach. The men we have signed up are Andy Kerr of Colgate for football and Johnny Jacobs of Oklahoma for Track. We expect to have added to this three some of the men from the southwest to assist in a minor way in the various sports, but so far none have been definitely employed.

I would like very much the time you want for the teaching of your theory courses, both in basketball and your training course. Also the amount for demonstration in the gymnasium. As I recall in our telegram to you we stated that you would be called on for a public lecture. This is more or less a missionary work to help the public in this town and country get a bit more interested in sports in general and basketball in particular. The subject you are to talk on will be left entirely to you. I will let you hear definitely from me in regard to the final arrangements about our program as soon as we get the information from you three conducting the schools as to the hours of work.

Looking forward to a successful school and a great deal of pleasure in again being associated with you, I am,

Mr. J. Lee Livingston,

Dear Mr. Livingston:

This will acknowledge your favor of
May 6th.

I am planning to write a book this
summer and take some basket ball movies. For that reason
I am leaving my summer free.

However, I do have one school
scheduled at Sam Houston St. Teachers College, Huntsville,
Texas from July 12th to 18th. I do not know who is in
charge of the football.

I am really staying out of the coach-
ing school field this summer. This movie which I am to make
is a silent teaching film and am not publishing a thing re-
garding it, as I am doing it for another company and not pro-
moting it myself. When it is finished I think it will be a
good reel for every high school to have.

There are several good coaching schools
in this section of the country, - one at Northwestern Univer-
sity, another at Lubbock, Texas and the Kansas State High
School Coaching School at Topeka, Kansas with Mr. E.A. Thomas
as Director. All of these schools will offer both basket ball
and football. Out of this group I trust you may get what you
want.

With best wishes, I am

Sincerely yours,

Dear Mr. Jones:

I will arrive sometime in the afternoon or the evening of the 11th and will be ready to start on the morning of the 12th. I will come to the hotel upon arrival. I expect to drive.

For my "Treatment of Athletic Injuries" course I should like a table at least 18 or 20 in. wide, no more than 20 in. if possible, 30 in. high, no higher, and about 6 ft. 6 in. long. Any sort of ordinary rough rubbing table will be satisfactory. Of course, should you have more than one table, it will be fine because we can use these other tables for demonstration purposes, helping the coaches on their manipulations and treatments.

I should like also adhesive tape, 5 yards long, 12 in. wide, in the regular assorted widths. If not these assorted strips just have the 3 in. width, 5 or 10 yards long, and we can tear the tape to suit the occasion.

I imagine that you can get some of the sporting goods firms to make a contribution or loan of the balls. The Lowe & Campbell people generally permit the school where the coaching school is held to use a couple of "Phog" Allen, #202, Lowe & Campbell balls. If the Lowe & Campbell man is not there or if you do not do business with them, any standard ball is highly satisfactory.

If the school is large, I would like to use 4 balls, a medium sized class 2 balls. I desire to have at least one new ball for demonstration purposes.

For demonstration of bandages I presume that we can get the other necessary stuff down there when I arrive.

With every good wish to you for a large and successful school, I am

Sincerely yours,

Director.

I have already written to Noble Kizer and he has signified a willingness to come and thinks that we have a good set-up here for a school.

Howe is a military school for boys and we have barracks, mess hall and all of the facilities to board and room coaches here on the campus. Our gymnasium is new and would be an excellent place for lectures and demonstrations.

Under separate cover I am sending you a catalogue of the school which should give you some idea of our plant.

Therefore, it will be greatly appreciated if you can send me a list of the institutions that are going to have basket ball schools, together with the dates and names of the parties who will be in charge.
