

UNIVERSITY OF KANSAS
SCHOOL OF PHARMACY
LAWRENCE

OFFICE OF THE DEAN

January 24,

1945.

Dr. Forrest C. Allen
Director of Physical
Education
University of Kansas

Dear Dr. Allen:

Thomas H. Steinle had been reported as having six unexcused absences in his physical conditioning. I have talked to him and he says that on Mondays he has Physics laboratory until 3:30 and sometimes he has ^{to} work overtime. However, he goes on to class late, so he says, but the roll has already been taken. This has been explained to his instructor, according to him. He often stays later and runs around the track several times, he says.

Very truly yours,

J. Allen Reese,
Chairman, Administrative Committee on
Physical Conditioning.
